Narratives

Disaster Damage:

In 2017, communities that had not yet had a chance to fully recover from the 2015 and 2016 floods were impacted again. Hurricane Harvey, a regenerated tropical depression, made landfall on August 25, 2017, as a Category 4 hurricane, bringing with it extreme wind gusts and, in some places, up to 60 inches of rain in 5 days. The hurricane caused catastrophic flooding and at least 82 human fatalities, due in part to the weather system stalling over the Texas coast. The windspeeds recorded over South Texas may have been underestimated, especially near the coast and close to the eyewall of Hurricane Harvey, as many observation stations were disabled prior to landfall of the eye of the hurricane; however, a peak wind gust of 150 mph was reported near Rockport.

Hurricane Harvey made landfall twice and is viewed by many as three separate events: the initial landfall in Aransas County; unprecedented rainfall in the Houston metroplex and surrounding areas; and the second landfall on August 29, 2017, in southeast Texas near the cities of Orange, Beaumont, and Port Arthur. These events caused not only wind damage but also widespread flooding.

The 49 CDBG-DR eligible counties affected by Hurricane Harvey cover 15 percent or 39,496 square miles of land area in the state and contain approximately 32 percent of the state's population. The land area affected is roughly the size of the state of Kentucky.⁷ Nearly 8.9 million Texans live in the affected counties.

The two catastrophic characteristics of Hurricane Harvey: (1) hurricane-force winds and (2) a slow-moving storm bringing historic rainfall and flooding.

By the time the rain stopped, Hurricane Harvey had dumped almost a year's worth of rainfall in just a few days. So much rain fell during the hurricane that the National Weather Service had to update the color charts on their graphics in order to effectively map it. Two additional shades of purple were added to represent rainfall totals for 20-30 inches and "greater than 40 inches" ranges.

Recovery Needs:

Recognizing the state's long and well-documented history of flooding, hurricanes, wildfires, and droughts, as well as its ongoing efforts to mitigate future disaster effects in its most vulnerable Page 17 of 213 areas, the GLO continues its commitment to rebuilding while prioritizing resiliency. In assessing unmet needs, it is important to consider the additional costs of safeguarding housing and community infrastructure investments from future disasters. As such, Texas will not only assess projects and consider state-run programs that replace or repair lost property but will also seek to invest resources in efforts that promise to mitigate damage from a wide range future disaster types. Although this can increase costs initially, mitigating efforts can greatly reduce the cost of future damages by a ratio of 6:1. The success of this long-term recovery practice was seen firsthand during Hurricane Harvey. Resilient-enhanced projects from previous CDBG-DR efforts suffered less damage from Hurricane Harvey: construction projects designed to prevent future flooding, mitigate further loss, and decrease evacuation times.

Single family home resiliency solutions are expected to add approximately 10 to 15 percent to the total cost per home; multi-family resiliency solutions add 15 to 20 percent to the total cost per project; and infrastructure resiliency solutions add 15 to 20 percent to the total cost per project. Resiliency solutions are varied and dependent on the respective area's Threat and Hazard Identification and Risk Assessment (THIRA).

Single family home resiliency solutions may include elevating the first floor of habitable area; breakaway ground floor walls; reinforced roofs; storm shutters; use of ENERGY STAR appliances and fixtures; and mold and mildew resistant products. Multi-family resiliency solutions include elevation; retention basins; fire-safe landscaping; firewalls; and landscaped floodwalls.

Buyout programs support hazard mitigation, floodplain management goals, and resiliency by removing homeowners from the floodplain, thus eliminating vulnerability to future flooding situations. After homes are purchased, the structures are demolished or relocated. The land reverts to a natural floodplain, converts into a retention area, or is retained as green space for recreational purposes. The buyout option serves multiple objectives and provides a resiliency option versus rebuilding within a floodplain. Buyouts help prevent repetitive loss and extreme risk to human health and safety. Buyouts conducted sooner rather than later prevent homeowners from making repairs and investing funds in properties that they then may not want to sell.

Responsible Organization	Organization Type	Proposed Budget
Texas General Land Office	State Agency	\$ 226,833,794.00

Location Description:

Areas impacted by disaster.

Activity Description:

State administrative costs including subrecipient administration costs will not exceed five (5) percent, \$251,210,750. Planning and administrative costs combined will not exceed 20 percent. The provisions outlined under 42 U.S.C. 5306(d) and 24 CFR §570.489(a)(1)(i) and (iii) will not apply to the extent that they cap state administration expenditures and require a dollar-for-dollar match of state funds for administrative costs exceeding \$100,000. Pursuant to 24 CFR §58.34(a)(3), except for applicable requirements of 24 CFR §58.6, administrative and management activities are exempt activities under this Action Plan. Once contracted, the GLO will allow the drawdown of pre-agreement costs associated with eligible disaster recovery activities dating back

to the date of the disaster for subrecipients and the GLO with appropriate documentation.

The GLO will retain the full 5% allocated for administrative costs associated with the CDBG-DR allocation for purposes of oversight, management, and reporting. The only exception will be an allowance for up to 2% of program amounts for costs associated with housing activities that require administrative type activities in Harris County and the city of Houston programs. Additionally, Harris County and Houston will be allowed to spend up to 10% of program amounts for costs directly related to implementation of housing activities and 6% for non-housing and infrastructure type activities. Once programs are identified by Harris County and Houston, administrative costs will be outlined in subsequent Action Plan Amendment budgets. Engineering and design activities will be capped at 15% of the total project award unless special services are necessary; subject to GLO approval. The GLO, Harris County, and the city of Houston will limit planning costs to 5% of each respective allocation to complete projects as defined in 24 CFR 570.205.

Location Description:

Subrecipient shall carry out the following planning activities in Harris County.

Activity Description:

Subrecipient will use funding for planning activities that will benefit the most impacted and distressed areas affected by Hurricane Harvey. The eligible activity includes planning, urban environmental design, and policy-planning-management-capacity building activities as listed in 24 CFR 570.205, HCDA 105(a)(12).

Subrecipient will invest sufficient planning funds to accurately identify unmet needs, which will ensure that projects are implemented in a manner to achieve successful completion. Planning activities will enhance programs, operations, and knowledge for recovery.

Planning activities will be prioritized as follows:

- i. Activities for planning and operations of disaster response and recovery programs, including policy-planning and management-capacity building
- ii. Activities for environmental review of projects and other pre-development planning
- iii. Planning Studies including but not limited to studies or plans for flood control, drainage improvement, affordable housing and fair housing, emergency management/operations, disaster response and recovery, health, infrastructure improvements, or other efforts to further recovery from Hurricane Harvey or mitigate future disasters and establish plans for comprehensive response and recovery efforts.

Activity Description:

The Subrecipient will offer an Economic Revitalization Program, which will support a comprehensive recovery by creating or retaining eight hundred thirteen (813) jobs at or below fifty thousand (\$50,000) per job created or retained for low and moderate-income persons through the provision of capital, credit and technical assistance to businesses, including microenterprises. Assistance may be provided through loans or grants, and assistance may be part of a revolving loan fund. It is intended that this program will support small businesses that include, but is not limited to, those providing housing construction services, to work with and complement the housing programs funded with Community Development Block Grant-Disaster Recovery funds. Economic revitalization activities must contribute to the long-term recovery and restoration of housing. The Subrecipient may utilize public and private nonprofit agencies, authorities, or organizations and for-profit organizations to carry out the program. The application or Notice of Funding Availability/ Request for Proposal (NOFA/ RFP) process will clearly establish the process and acceptance period, threshold criteria, and the award process. Selection criteria will likely include: the need for program, cost reasonableness and effectiveness, activity management and implementation, and experience/past performance. Eligible subrecipients include public or private nonprofit agencies, authorities, or organizations and for-profit organizations.

Location Description:

Housing activities shall take place in the City of Houston.

Activity Description:

The Subrecipient may elect to voluntarily acquire single family homes for rehabilitation or reconstruction. The home acquired may then be reconstructed through the Single-Family Development Program or rehabilitated or reconstructed by partners. These homes would then be offered for sale to Low to Moderate homebuyers or to another homeowner with a damaged home. It is estimated that the Acquisition option may acquire an estimated thirty-eight (38) homes. Assistance will be provided to homeowners located in a floodplain or residing in a repetitive flood area that agree to relocate outside of the floodplain. The Relocation incentive assistance will be offered. Applicant may receive post-disaster fair market value, which may include incentives. However, incentives may not be given to applicants that move into disaster-impacted floodplains.

The Subrecipient will provide public services to approximately three hundred thousand (300,000) low to moderate income persons. The program will provide a comprehensive approach to recovery for Houstonians. These services will support residents to find housing, remedy housing issues, and/or become more resilient in future disasters, creating a stronger, more prepared community. Services will be made accessible to individuals with wide-ranging barriers through varying outreach strategies, partnerships with organizations serving people with disabilities, and making accommodations, as needed.

Subrecipient shall carry out the following planning activities in the City of Houston.

Activity Description:

The Subrecipient will provide new affordable single family homes for Low- to Moderate-Income (“LMI”) individual households affected by Hurricane Harvey, in order to meet the National Objective of benefiting low- to moderate-income persons, thus satisfying the criteria listed in Section 104(b)(3) of the Housing and Community Development Act of 1974, as amended (42 U.S.C. 5304(b)(3)). Project Delivery and Administration costs, as defined in the State of Texas Plan for Disaster Recovery, enacted May 1, 2018, as amended, will not exceed ten (10%) and two percent (2%), respectively, of the total grant allocation for both Non-Rental and Rental Activities. An environmental review must be conducted at all locations prior to the execution and commencement of work.

Subrecipient shall carry out the following housing activities in the County of Harris. Development must be located within Harris County and outside the city limits of Houston except in certain cases where the City and County partner on projects that provide housing.

Activity Description:

The Subrecipient will offer an Affordable Rental Program which will benefit an estimated one thousand six hundred four (1,604) low- to moderate- income households. The Affordable Rental Program is designed to provide funds for acquisition, rehabilitation, reconstruction, and new construction of affordable multi-family housing projects in areas impacted by Hurricane Harvey, as well as case management services for displaced renter households. For fifteen (15) years for rehabilitation projects and twenty (20) or more years for new construction projects, the rent for at least fifty-one percent (51%) of the units must be restricted to an affordable rate for LMI individuals earning eighty percent (80%) or less of the Area Median Family Income (AMFI). The affordable rents must comply with High HOME Rents—except for the rents for tenants who earn thirty percent (30%) or below of Area Median Family Income (AMFI), who will pay sixty percent (60%) of Low HOME rents—and other existing Land Use Restrictive Agreement (LURA) restrictions, if applicable.

Location Description:

Subrecipient shall carry out the following housing activities in the County of Harris. Homeowners located within the city limits of Houston and outside of Harris County will be ineligible for participation in the program.

Activity Description:

Subrecipient will provide homeowner rehabilitation and reconstruction assistance activities. Homeowners located within the city limits of Houston and outside of Harris County will be ineligible for participation in the program. Eligible Activities include but are not limited to: Single family owner-occupied rehabilitation, reconstruction, and/or new construction; Repair and replacement of manufactured housing units; Hazard mitigation for recovery activities; Elevation; Relocation Assistance; Demolition only; Subrecipient will also provide temporary financial assistance to homeowners to prevent homelessness where such homeowners are still displaced due to the disaster or are in the process of completing repairs to their primary residence to meet habitability standards. The activity will consist of two primary services with the sole purpose of preventing homelessness in the region following Hurricane Harvey. Short-term Mortgage Assistance – The Short-Term Mortgage Assistance will deliver up to ten thousand dollars (\$10,000) to assist low to moderate income households impacted by Hurricane Harvey with mortgage payments on their primary residence. Mortgage assistance may not exceed twenty (20) months. This program is intended to prevent foreclosure or predatory, low value buyouts of homes in the impacted areas and ensure that households can continue down the road to recovery without the imminent threat of homelessness. Applicants must demonstrate a financial need to prevent foreclosure, or delinquency on current mortgage for their primary residence. Utility Assistance – Utility Assistance Program will provide assistance of up to one thousand dollars (\$1,000) to low to moderate income households impacted by Hurricane Harvey to meet immediate utility needs. Utility assistance may include electricity, gas, wastewater, water, and other utility bills and deposits. Assistance will be provided for current and future bills but not those in arrears. The County will insure that these programs are made accessible to individuals having wide ranging disabilities including mobility, sensory, developmental, emotional, and other impairments. Intake and program servicing and meeting facilities will be accessible per the Americans with Disabilities Act (ADA).

Activity Description:

Subrecipient will provide drainage Infrastructure improvements, as outlined in the following projects:

*Precinct 1- Beaumont Place Drainage Improvements - Subrecipient shall increase drainage system conveyance and capacity by regrading approximately twenty thousand one hundred sixty-seven cubic yards (20,167 CY) of existing ditch; installing concrete rip-rap in existing drainage ditch; upsizing existing driveway culverts and street crossings; and completing associated appurtenances. These Activities shall benefit two thousand five hundred seventy (2,570) persons, of which one thousand five hundred ninety-five (1,595) or sixty-two and six hundredths percent (62.06%) are low- to moderate-income. Improvements include 28,355 linear feet.

*Precinct 1 - Kingslake Forest Drainage Improvements - Subrecipient shall increase drainage system conveyance and capacity by upsizing approximately seven thousand seven hundred sixty linear feet (7,760 LF) of existing storm sewer; replacing thirty-nine (39) inlet grates with bolt-down grates; and completing associated appurtenances. These Activities shall benefit three thousand two hundred fifty (3,250) persons, of which one thousand eight hundred five (1,805) or fifty-five and fifty-four hundredths percent (55.54%) are low- to moderate-income. Improvements include 7,760 linear feet.

*Precinct 2- High Meadows Drainage Improvements - Subrecipient shall excavate and install approximately two hundred ninety-two cubic yards (292 CY) of new ditches; install approximately five thousand three hundred linear feet (5,300 LF) of enclosed storm sewer system with reinforced concrete pipes and inlets; and complete associated appurtenances. These Activities shall benefit four thousand three hundred seventy (4,370) persons,

of which two thousand three hundred sixty (2,360) or fifty-four and zero hundredths percent (54.00%) are low- to moderate-income. Improvements include 5,300 linear feet.

*Precinct 4 - Holderrieth Drainage Improvements - Subrecipient shall improve drainage system conveyance and capacity by installing approximately seven thousand nine hundred twenty linear feet (7,920 LF) of storm sewer, inlets, manholes, associated street improvements, including removing and replacing the existing asphalt road with approximately forty-two thousand two hundred forty square yards (42,240 SY) of concrete street, curb and gutter, median, sidewalk improvements, traffic signals, and bridge expansion, and complete associated site work and appurtenances. These Activities shall benefit three thousand two hundred ninety (3,290) persons, of which two thousand two hundred five (2,205) or sixty-seven and two hundredths percent (67.02%) are low- to moderate-income. Improvements include 7,920 linear feet.

*City of Deer Park - Bayou Bend Regional Detention Facility and Drainage Improvements Subrecipient shall construct a new thirty-five acre-feet (35 AF) detention pond and associated site work, rehabilitate and install approximately three thousand six hundred linear feet (3,600 LF) of storm sewer with concrete pipes, grade ditches, install storm sewer inlets, culverts, and complete associated appurtenances. These Activities shall benefit three thousand two hundred and thirty (3,230) persons, of which one thousand nine hundred sixty (1,960) or sixty and sixty-eight hundredths percent (60.68%) are low- to moderate-income. Improvements include one (1) public facility.

*City of La Porte - North Neighborhood Drainage Improvements - Subrecipient shall increase drainage system conveyance and capacity by upsizing approximately two thousand six hundred fifty linear feet (2,650 LF) of storm sewer system with concrete pipes, install approximately four hundred linear feet (400 LF) of concrete box, junction boxes, and associated waterline improvements including the installation of approximately two thousand linear feet (2,000 LF) of waterline, and fire hydrant replacement, and complete associated appurtenances. These Activities shall benefit one thousand two hundred (1,200) persons, of which seven hundred ninety-five (795) or sixty-six and twenty-five hundredths percent (66.25%) are low- to moderate-income. Improvements include 2,650 linear feet.

*Zube Park Drainage Improvements - Subrecipient shall increase the storage volume of the Zube Park Stormwater Detention Basin by excavating approximately one hundred sixty-seven thousand cubic yards (167,000 CY) of material. Construction shall consist of the excavation and disposal of material and complete associated site work and appurtenances. These Activities shall benefit three thousand eight hundred thirty (3,830) persons, of which two thousand seventy (2,070) or fifty-four and five hundredths percent (54.05%) are low- to moderate-income. Improvements include one (1) public facility.

*City of Pasadena - Drainage Improvements for Armand Bayou Upper Reaches - Subrecipient shall reduce flooding in the target area north of Fairmont Parkway by constructing an approximately eighteen thousand linear foot (18,000 LF) long overflow flood channel. Construction shall consist of excavating and regrading approximately five hundred thousand cubic yards (500,000 CY) of material, disposal of excavated material, installing one thousand eight hundred linear feet (1,800 LF) of storm sewer by tunneling and manholes, and completing associated site work and appurtenances. These Activities shall benefit nine thousand fifteen thousand five hundred-fifty-five (15,555) persons, of which eight thousand four hundred eighty (8,480) or fifty-four and fifty-one hundredths percent (54.51%) are low- to moderate-income. Improvements include 18,000 linear feet.

*City of South Houston - Drainage Improvements - Subrecipient shall increase drainage system conveyance and capacity by upsizing approximately thirty-two thousand five hundred fifty linear feet (32,550 LF) of storm sewer, install storm sewer inlets, and manholes, and complete associated appurtenances. These Activities shall benefit nine thousand six hundred forty (9,640) persons, of which five thousand nine hundred ninety-five (5,995) or sixty-two and nineteen hundredths percent (62.19%) are low- to moderate-income. Improvements include 32,550 linear feet.

City of Katy Drainage Improvements - Subrecipient shall improve sheet flow conveyance of floodwaters from Morton Road and the surrounding drainage area by installing approximately three thousand four hundred linear feet (3,400 LF) of six-inch concrete pavement, approximately four thousand four hundred linear feet (4,400 LF) of six-inch concrete curb, approximately seven hundred fifty linear feet (750 LF) of six-inch concrete driveways, approximately two thousand nine hundred linear feet (2,900 LF) of four-foot sidewalks, and approximately four thousand linear feet (4,000 LF) of main storm sewer lines and completing associated appurtenances. This Activity shall benefit two thousand five hundred forty (2,540) persons. Of these persons, one thousand five hundred seventy-five (1,575), or sixty-two and one hundredths percent (62.01%), are of low to moderate income.

Barrett Station - Drainage Improvements - Subrecipient shall increase drainage system conveyance and capacity by regrading approximately three thousand linear feet (3,000 LF) of existing roadside ditches, upsizing driveway culverts, constructing approximately four thousand three hundred sixty linear feet (4,360 LF) of roadside ditches on Jean La Fitte Drive and Paris Drive, and extending roadside ditches along East Broussard Street, Lullaby Lane, and Sandman Avenue. System conveyance and capacity will also be increased by constructing multi-use detention basins along East Broussard Street, desilting road-crossing culverts and a siphon, installing a trash rack, and constructing a reinforced concrete pipe (RCP) siphon under San Jacinto River Authority (SJRA) canal. Site work will also include clearing and grubbing approximately one thousand eight hundred linear feet (1,800 LF) of the Jaeger Gully west of the SJRA irrigation canal, clearing and grubbing approximately one thousand eight hundred linear feet (1,800 LF) of the SJRA irrigation canal, and completing associated appurtenances. This Activity shall benefit two hundred seventy-five (275) persons. Of these persons,

two hundred twelve (212), or seventy-seven and nine hundredths percent (77.09%), are of low to moderate income. Western Homes - Drainage Improvements - Subrecipient shall improve drainage systems by installing seven thousand four hundred linear feet (7,400 LF) of new storm sewer under all roadway ditches and shall restore ditch and pipe culverts. The project will also restore three thousand eight hundred linear feet (3,800 LF) of existing ditches and construct a new detention facility. The project area is generally bound on the north by Sandydale Lane, southwest by Chrisman Road, south by Aldine Mail Road, and east by Aldine Westfield Road. This Activity shall benefit five hundred eighty (580) persons. Of these persons, five hundred twenty-five (525), or ninety and fifty-two hundredths percent (90.52%), are of low to moderate income. Total improvements include Two (2) Public Facilities and 110,895 Linear Feet.

Location Description:

Subrecipient shall carry out the following housing activities in the County of Harris.

Activity Description:

Subrecipient will provide a Single Family New Construction Program (SFNCP), which will assist approximately five hundred sixty-two (562) eligible households. The program will replace affordable single-family housing stock by developing new housing in areas of reduced risk of flooding. Subrecipient shall implement the program under several models to ensure the necessary flexibility required to deliver the maximum number of units within the funding timeframe. These eligible development models include but are not limited to the following:

Model 1

* Subrecipient acquires suitable and feasible land for single family development, related amenities (partner relationship between Community Services and Engineering Departments)

* Subrecipient's Engineering Department, through the bid process, subcontracts an Architecture and Engineering firm to develop the land's infrastructure

* Developer(s) procured by Subrecipient will build and sell the homes

Model 2

* Subrecipient acquires land

* Developer procured by Subrecipient will:

- a. Develop the infrastructure
- b. Build the homes
- c. Sell the homes

Model 3:

* Subrecipient acquires land

* Subrecipient's Engineering Department, through the bid process, subcontracts an architecture and engineering firm to develop the land's infrastructure

* Subrecipient hires a Contractor to build the homes

* Subrecipient markets and sells the homes

Eligible activities include:

- i. New construction of affordable single-family housing.
- ii. Infrastructure for housing development.
- iii. Down Payment Assistance.
- iv. Public Services within the fifteen percent (15%) cap (e.g., housing counseling, credit cleanup, legal services). These services are to assist low to moderate income homebuyers to access homeownership opportunities being created in the developments. The County will insure that these programs are made accessible to individuals having wide-ranging disabilities including mobility, sensory, developmental, emotional, and other impairments. Intake and program servicing and meeting facilities will be accessible per the Americans with Disabilities Act (ADA).

Activity Description:

The purpose of this project is to develop a thorough assessment of the management requirements for the data product content and the organizational data exchange partnerships needed to collect, organize, preserve and control access to data relevant to disaster recovery and mitigation and to evaluate the relative costs and benefits of different approaches and designs for systematic data management. The project requires an extensive survey that identifies the different kinds of useful data products, locates the primary sources and determines where information gaps occur as a consequence of the lack of current, accurate data or the absence of data. Recovery data requirements within different parts of the GLO CDR should be surveyed to identify the data essential to performing agency functions effectively. Critical data originating in other state and federal agencies should be designated along with the methods needed to exchange data securely with these organizations. During the survey, consideration should take into account the needs and uses of data by other organizations, such as local jurisdictions, NGOs and private sector entities, which, in turn, could, become important sources for recovery information. After completion of the survey, concepts for the data system architecture can then be evaluated to distinguish the most efficient, cost-effective approaches to long-term data organization and IT management. The described method of investigation will produce a two-part report of the findings accompanied by supporting data products and appendices.

UT-CSR will perform the tasks and duties described below on behalf of the General Land Office. The work will be organized in two phases. The first phase will consist of a comprehensive data survey to establish the sources of useful data, to prioritize the data having the greatest importance and to detect significant data shortfalls. The first phase will also cover critical data sharing partnerships and include the IT security requirements for safeguarding sensitive information. The second phase of work will synthesize the results of the first phase with respect to the cost effectiveness of different approaches to system designs for data management leading to recommendations for a scalable, sustainable system architecture.

Activity Description:

Subrecipient will provide drainage infrastructure improvements, as outlined in the following projects:

Beaumont Place Drainage Improvements - Subrecipient shall increase drainage system conveyance and capacity by regrading approximately twenty thousand one hundred sixty-seven cubic yards (20,167 CY) of existing ditch; installing concrete rip-rap in existing drainage ditch; and upsizing existing driveway culverts and street crossings. These activities shall benefit two thousand five hundred seventy (2,570) persons, of which one thousand five hundred ninetyfive (1,595) or sixty-two percent (62%) are low to moderate-income.

Kingslake Forest Drainage Improvements - Subrecipient shall increase drainage system conveyance and capacity by upsizing approximately seven thousand seven hundred sixty linear feet (7,760 LF) of existing storm sewer and replacing thirty-nine (39) inlet grates with bolt-down grates. These activities shall benefit three thousand two hundred fifty (3,250) persons, of which one thousand eight hundred five (1,805) or fifty-six percent (56%) are low to moderate-income.

High Meadows Drainage Improvements - Subrecipient shall excavate and install new ditches approximately two hundred ninety-two cubic yards (292 CY) and install approximately five thousand three hundred linear feet (5,300 LF) of enclosed storm sewer system with reinforced concrete pipes and sixteen (16) B and BB type inlets. These activities shall benefit four thousand three hundred seventy (4,370) persons, of which two thousand three hundred sixty (2,360) or fifty-four percent (54%) are low to moderate-income.
