Narratives

Disaster Damage:

Impact of 2019 Lower Rio Grande Valley Floods:

From June 24 to June 25, 2019, areas in South Texas were impacted by widespread rain and severe thunderstorms that were nearly identical to the events that led to the 2018 disaster declaration. High rain totals within Cameron, Hidalgo, and Willacy Counties led to street flooding, nearly 1,200 homes being destroyed or in need of major repair, and over 100 people needing to be evacuated. It was also reported that numerous mobile homes were flooded and flipped on their side due to the strength of the flood waters, and power outages were seen throughout the impacted cities and counties. On the first night of the flooding event, it was reported that over 40 roads were left impassable and eventually closed to the public.

It was estimated that peak wind gusts reached upwards of 65 to 75 mph and rain totals reached between 12 and 18 inches in some locations. However, due to the rain falling in heavy bursts with gaps of 2 to 3 hours with no precipitation, local officials reported that flooding and the flooding impacts could have been much worse. On June 27, 2019, the governor declared a state of disaster in Cameron, Hidalgo, and Willacy Counties. On July 17, 2019, the President issued a major disaster declaration, DR-4454, for Cameron, Hidalgo, and Willacy Counties.

Impact of Tropical Storm Imelda:

Tropical Storm Imelda made landfall near Freeport, Texas, on September 17, 2019. After moving inland, Imelda was quickly downgraded to a Tropical Depression over Houston on September 18. The tropical system continued to bring significant rain amounts and isolated tornadoes across Southeast Texas as it slowly moved away from the Texas coast. On September 19, Tropical Depression Imelda began to degenerate about 100 miles northeast of Houston but continued to bring heavy amounts of rain to Southeast and East Texas. Between September 20 and September 21, Imelda completely dissipated over Oklahoma. On October 4, the President issued a major disaster declaration, DR-4466, for the Tropical Storm Imelda impacted areas.

Overall, a steady influx of deep tropical moisture supplied Tropical Storm Imelda and its remnants as a combination of the system's slow looping motion over Eastern Texas produced widespread rainfall amounts greater than 30 inches across several counties, including portions of the Houston metro area to the west and Beaumont and Orange to the east. The highest rainfall total was 44.29 inches recorded 2 miles south-southwest of Fannett at a county drainage district site. The Fannett rainfall total is significant because 31 inches fell in just 12 hours. This rainfall caused devastating flooding along the Interstate 10 (I-10) corridor from Winnie eastward to Fannett, Beaumont, Vidor, and Orange, Texas. During the height of the flooding, numerous vehicles were either stuck or flooded on I-10 between Beaumont and Winnie for nearly 3 days. The 44.29-inch peak rainfall total designated Imelda as the seventh wettest tropical cyclone (in terms of highest rainfall total for a tropical cyclone) to impact the United States, the fifth wettest in the contiguous United States, and the fourth wettest in Texas since 1940.

There were six direct deaths reported from Imelda: four deaths in Jefferson County and two deaths in Harris County. In Chambers County, Riceland Medical Center was forced to evacuate while numerous high-water rescues were conducted;

over 1,000 vehicles were inundated by flood waters along I-10 and local roads. The damage caused by Tropical Storm Imelda was primarily flood-related with an estimated 5,100 homes impacted in Jefferson County alone. In Harris, Liberty, and Montgomery Counties up to 3,100 homes were impacted, while in Orange County it was estimated that just under 2,300 homes were impacted. It was also reported that in Orange County, 78 percent of those homes impacted by Tropical Storm Imelda were also impacted by Hurricane Harvey. The damage total from Tropical Storm Imelda is estimated to be near \$5 billion according to NOAA National Centers for Environmental Information and \$8 billion according to a report by AccuWeather.

As part of their countdown of the “Top 10 Weather Events of the 2010s,” the Houston-Galveston weather forecast office of the National Weather Service ranked Tropical Storm Imelda as the second most impactful weather event of the decade (2010-2019) to impact the region. The top-ranked weather event was Hurricane Harvey.

Recovery Needs:

The state of Texas completed the following needs assessment (the Assessment) to identify long-term needs and priorities for CDBG-DR funding allocated as a result of the 2019 Lower Rio Grande Valley Floods and Tropical Storm Imelda (the 2019 disasters). This Assessment is informed by a comprehensive set of data sources that cover multiple geographies and sectors and was completed according to guidelines set forth by HUD in their previous Federal Register (FR) notice, 83 FR 5844 (February 9, 2018). This previous notice is cited within HUD’s FR notice for the 2018 and 2019 disaster allocations (the Notice), 85 FR 4681 (January 27, 2020), as the applicable notice to inform the development of the assessment of community impacts and unmet needs, and to guide the development and prioritization of planned recovery activities. The information presented throughout the Assessment focuses on the impacts sustained by the 10 CDBG-DR eligible counties: Cameron, Chambers, Harris, Hidalgo, Jefferson, Liberty, Montgomery, Orange, San Jacinto, and Willacy. The information for the Assessment was compiled using federal and state sources, including information from FEMA, HUD, the Texas Division of Emergency Management, the Small Business Administration, and the Texas Department of Housing and Community Affairs (TDHCA).

This Assessment includes specific details about unmet needs within the eligible communities and includes details for housing, infrastructure, and economic revitalization. This Assessment will take into consideration unmet needs resulting from the 2019 disasters; primarily, the Assessment considers and addresses the housing unmet needs, in accordance with HUD’s Federal Register notice for this CDBG-DR allocation, 85 FR 4681 (January 27, 2020). The Assessment will also discuss additional types of assistance that may be available to affected communities and individuals such as insurance, other federal assistance, or any other possible funding sources. Taking the above into consideration, mitigation and resiliency measures to protect against future hazards will also be examined.

\$ 11,375,500.00

Location Description:

Planning activities will take place in the affected areas.

Activity Description:

To provide an efficient and effective method of selecting and executing planning studies following the 2019 Lower Rio Grande Valley Floods and Tropical Storm Imelda, the GLO will work with Texas universities, state agencies, federal agencies, regional planning and oversight groups—including councils of governments, river authorities, and drainage districts— and/or vendors (term which shall include, but not limited to, governmental entities, nonprofit and for profit firms, entities, and organizations) to conduct studies with CDBG-DR funds. The HUD-identified most impacted and distressed areas will see the most benefit of these planning activities, as 80 percent of planning funds will be used in studies which directly impact the HUD-identified most impacted and distressed areas.

Location Description:

The GLO allocated program funds to address unmet rental needs for the counties impacted by the 2019 Tropical Storm Imelda in the HUD designated most impacted and distressed areas. Stonegate Manor - 4121 Turtle Creek Dr, Port Arthur, TX, 77642, Sunlight Manor - 2950 S 8th St, Beaumont, TX, 77701, New Caney Royal Garden - 22917 Gabriel Rd, New Caney, TX, 77357, New Caney Pioneer - 22917 Gabriel Rd, New Caney, TX, 77357, and Cleveland Family Pioneer - 414 N Holly Ave, Cleveland, TX, 77327.

Activity Description:

The program has been designed to provide funds for rehabilitation, reconstruction, and new construction of public housing and affordable multifamily housing projects in areas impacted by the 2019 Tropical Storm Imelda. These activities will meet low to moderate income national objective. There are a total of five multifamily complexes in this activity. The following complexes are rehabilitation projects; Stonegate Manor, and Sunlight Manor. The following complexes are new construction projects; New Caney Royal Gardens, New Caney Pioneer, and Cleveland Family Pioneer.

Proposed Budget

\$ 61,430,000.00

Location Description:

Activities shall take place in affected areas.

Activity Description:

The Infrastructure Competition will provide disaster relief, long-term recovery, and restoration of infrastructure for local communities impacted by the 2019 Lower Rio Grande Valley Floods (DR-4454) and Tropical Storm Imelda (DR-4466). Each infrastructure activity must demonstrate how it will contribute to the long-term recovery and restoration of housing.
