

DON'T WAIT BE PREPARED

DON'T WAIT UNTIL IT'S TOO LATE TO GET YOUR FLOOD INSURANCE

DID YOU KNOW?

- Floods cost America, on average **\$8.2 billion every year**, and recovering from one inch of water can cost at least **\$27,000** in damage and repairs.
- **Storms** are not the only causes of floods. Flooding can be caused by dams or levees breaking, snowmelt, and new development.
- Flood coverage is available as either a separate policy through the NFIP and for some private insurers.
