

BE PREPARED, STAY PREPARED

Know your flood risk before it's too late

Sign up for your community's warning system.

The Emergency Alert System (EAS) and National Oceanic and Atmospheric Administration (NOAA) Weather Radio also provide emergency alerts.

Gather supplies in case you have to leave immediately or if services are cut off.

Keep in mind each person's specific needs, including medication. Don't forget the needs of pets. Obtain extra batteries and charging devices for phones and other critical equipment.

Protect your property.

Move valued items to higher levels. Declutter drains and gutters. Install check valves. Consider a sump pump with a battery.

Obtain flood insurance.

Homeowner's policies do not cover flooding. Get good coverage under the National Flood Insurance Program (NFIP).
