Right-Side Checklist

Each project submitted in the LBAP program should be maintained using the GLO's Right Side Checklist located on the Texas GLO recovery website.

https://recovery.texas.gov/grant-administration/grantimplementation/buyouts-and-acquisitions/index.html

Such form should be continuously maintained and resubmitted within the TIGR system as project files move forward and should be maintained in the local file.

TEXAS GENERAL LAND OFFICE

The GLO has created a "Right Side Documentation Upload Tool" to allow Subrecipients to understand how Right-Side documents should be uploaded to the applicable project file in TIGR

Texas General Land Office Community Development and Revitalization CDBG-DR Buyout / Acquisition Program Applicant Activity File Voluntary Buyout/Acquisition Right Side Documentation Upload Tool

All documentation should be filed thoroughly in the order identified below to ensure case clarity and file consistency. Some documents appear more than once in the list due to applicability of regulations. If the document has already been completed for another requirement it does not need to be completed again. Please note in the comments that it was already provided.

	Documentation Sections	GLO Form Name and/or Information	Document Group	TIGR Document Type	Document Title			
Sum	mary Document:							
	Applicant Activity File <u>Right Side</u> Documentation Checklist	This Document completed and the file supported as the application process progresses.	Project	Housing Project - Right Side Checklist	Right Side Checklist

	Applicant	Provide evidence of delivery by certified or registered first class mail, return receipt requested, or a certification of hand delivery	Project	Housing Project - Fair Market Offer	R2. Offer Letter Delivery			

The spreadsheet is broken up into sections, and subsections. For example, under the "Property Information" section there is a total of four sub-sections

Prop	erty Information:

Subrecipients should create document shells under the applicable project file TIGR, and upload all corresponding documents to the shell. For example, right side subsection two," Documentation of Offer to Applicant" has two required documents.

1	Documentation of Fair Market Value (FMV) determination	Provide Licensed Appraisal Report and Property Survey (if applicable)	Project	Housing Project - Appraisal	R1. Appraisal

Once the document is created, upload the applicable document to the entry.

The Subrecipient should use the provided naming convention when naming the document.

This example requires two documents, after the 1st document is uploaded, the "choose file" button can be used multiple times for the shell.

Requesting Obligation in TIGR

When the Subrecipient is ready to request obligation of project costs ahead of payment, the GLO requires the Subrecipient to complete an obligation request form. This form will be used by GLO to validate the necessity of projected project costs.

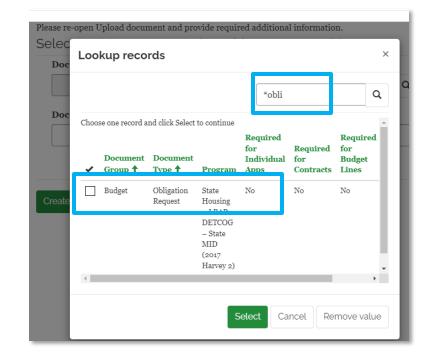

The completed form should be printed and uploaded to the project documents in TIGR portal under each TIGR App ID included in the request. Upload the completed sheet to TIGR using Document Type "Budget-Obligation", name the document by using the TIGR APPID followed by "ObRqst" and the obligation request number for the project.

For example, if the Subrecipient previously requested an obligation for a property address and the Subrecipient is requesting a subsequent obligation request, the document title would be GLO17-XXXX-P_ObRqst_2

Requesting Obligation in TIGR

The completed form should be uploaded to the project documents in TIGR portal under each TIGR App ID included in the request. Upload the completed sheet to TIGR using Document Type "Budget-Obligation", name the document by using the TIGR APPID followed by "ObRqst" and <u>the obligation request number for the project</u>.

Requesting Funds in TIGR

In order to be paid for buyout costs, all associated Right-Side documents for the expense should be uploaded to the project file using the "Right-Side Documentation Upload Tool".

For example, the items to the right are required to be uploaded (if applicable) to the project file documents to support payment of advancement or reimbursement of homeowner closing costs.

Buyout/Acquisition Closing				
	Draw for Fair Market Value Paid to Homeowner at Closing			
	Licensed Appraisal Report and Property Survey (if applicable)			
	Signed Voluntary Offer Letter to Homeowner			
	Evidence of delivery of Offer Letter			
	HUD 1 Settlement Statement			
	Contract for Sale			
	Evidence of delivery of Vacate Notice			
	URA Compliance (see URA section below for required documents)			

Requesting Funds in TIGR

The corresponding documents can be found on the document tool.

Note: If a payment is requested for an advancement of funds, the Subrecipient will be required to upload a proof of payment to the title company/homeowner for the expense before any other subsequent payment is made on the project.

Requesting Funds in TIGR

The Right-Side Document Tool is meant to support project documents.

The Subrecipient should continue to include evidence of documented costs within the request for payment. Example: appraisal invoice, demolition costs, etc.

Such evidence should be maintained in the request for payment and will not be required to be submitted within the project documents section.
