

State of Texas Subrecipient			
Applicant	County	Project Activity	Award Amount
Austin County	Austin	buyouts of storm-affected properties - approximately 19 homes	\$1,655,654
Austin County	Austin	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events	\$4,301,175
Bastrop County	Bastrop	buyouts of storm-affected properties - approximately 10 homes	\$2,015,856.38
Bee County	Bee	facilitating proper storm water conveyance and reducing the impact of future flooding	\$100,645
Caldwell County	Caldwell	buyouts of storm-affected properties - approximately 5 homes	\$1,000,000
Caldwell County	Caldwell	improve critical sewer and wastewater infrastructure	\$1,458,279.69
Calhoun County	Calhoun	facilitating proper storm water conveyances and reducing the impact of future flooding, and ensuring emergency response systems are fully operational during emergency situations	\$5,936,548
City of Alvin	Brazoria	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$1,012,332.00
City of Anahuac	Chambers	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$139,271
City of Anderson	Grimes	improve drainage and stormwater infrastructure	\$167,101.39
City of Angleton	Brazoria	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$154,439
City of Aransas Pass	San Patricio	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events	\$10,696,302
City of Austwell	Refugio	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$591,701.00
City of Baytown	Chambers	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$1,785,864.00
City of Bay City	Matagorda	facilitating proper storm water conveyance and reducing the impact of future flooding	\$287,006.00
City of Beaumont	Jefferson	buyouts of storm-affected properties - approximately 13 homes	\$1,898,364.00
City of Bedias	Grimes	facilitating proper storm water conveyance and reducing the impact of future flooding	\$167,101
City of Bridge City	Orange	acquisition of storm-affected properties - approximately 9 homes	\$1,566,004.00
City of Brookshire	Waller	facilitating proper storm water conveyance, provide continued street access during rain events	\$999,834
City of Brookside Village	Brazoria	facilitating proper storm water conveyance, provide continued street access during rain events	\$999,834
City of China	Jefferson	improvements to streets damaged by flooding	\$288,489
City of Cleveland	Liberty	improve drainage and stormwater infrastructure	\$323,161.00
City of Columbus	Colorado	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$310,663
City of Corpus Christi	Nueces	improve drainage and stormwater infrastructure	\$7,234,755.00
City of Corpus Christi	Nueces	buyouts of storm-affected properties - approximately 10 homes	\$1,319,559.00
City of Cuero	DeWitt	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events; water Infrastructure improvements to ensure the city has enough potable water storage and pipe pressure during emergency situations.	\$1,426,977.00
City of Danbury	Brazoria	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$178,095.00
City of Dayton	Liberty	facilitating proper stormwater conveyance	\$498,578
City of Dickinson	Galveston	improve drainage and stormwater infrastructure	\$8,982,434
City of Dickinson	Galveston	buyouts and acquisitions of storm-affected properties - 99 homes	\$9,219,828
City of Eagle Lake	Colorado	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$220,089
City of East Bernard	Wharton	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events and reducing the impact of future flooding	\$157,563
City of Edna	Jackson	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$730,897
City of Freeport	Brazoria	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$193,271.00
City of Friendswood	Galveston	improve drainage and stormwater infrastructure	\$2,691,517.00
City of Galveston	Galveston	acquisiton of storm-affected properties - approximately 12 homes	\$2,838,296.00
City of Galveston	Galveston	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events and reducing the impact of future flooding	\$848,073.00
City of Ganado	Jackson	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$418,493
City of Goliad	Goliad	improve drainage and stormwater infrastructure	\$477,108.00
City of Gonzales	Gonzales	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events	\$852,300.00
City of Gregory	San Patricio	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$100,000.00

City of Groves	Jefferson	facilitate the proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and backflow in emergency situations; facilitate proper storm water conveyance, provide continued street access during rain events and reducing the impact of future flooding	\$4,117,380
City of Hallettsville	Lavaca	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events	\$279,939.00
City of Hempstead	Waller	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$421,314.00
City of Hitchcock	Galveston	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations, and to facilitate proper storm water conveyance	\$1,463,469
City of Huntsville	Walker	improve drainage and stormwater infrastructure	\$1,848,750.00
City of Ingleside	San Patricio	facilitating proper storm water conveyance and reducing the impact of future flooding	\$1,954,326.00.
City of Iola	Grimes	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events and reducing the impact of future flooding	161,101
City of Iowa Colony	Brazoria	improve drainage and stormwater infrastructure	\$131,675.00
City of Jasper	Jasper	facilitating proper storm water conveyance, provide continued street access during rain events and reducing the impact of future flooding	\$174,304
City of Jasper	Jasper	buyout of storm-affected properties - approximately 6 homes	\$1,000,000
City of Katy	Waller	facilitating proper storm water conveyance and reducing the impact of future flooding	\$5,049,478.70
City of Katy	Fort Bend	facilitating proper storm water conveyance and reducing the impact of future flooding	\$237,014
City of Kirbyville	Jasper	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$107,597
City of Liberty	Liberty	improve drainage and stormwater infrastructure	\$420,912.00
City of Liverpool	Brazoria	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events	\$191,486
City of Lumberton	Hardin	facilitating proper storm water conveyance, provide continued street access during rain events and reducing the impact of future flooding	\$2,505,137.91
City of Manvel	Brazoria	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$322,714.00
City of Mathis	San Patricio	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$100,000
City of Missouri City	Fort Bend	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events	\$954,306.00
City of Moulton	Lavaca	improve drainage and stormwater infrastructure	\$263,295.00
City of New Waverly	Walker	facilitating proper storm water conveyance, provide continued street access during rain events and reducing the impact of future flooding	\$167,783
City of Nixon	Gonzales	facilitating proper storm water conveyance and reducing the impact of future flooding	\$671,903.00
City of Nome	Jefferson	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events and reducing the impact of future flooding	\$486,972.29
City of Nome	Jefferson	buyouts of storm-affected properties - approximately 19 homes	\$1,135,498.47
City of Orange	Orange	acquisition of storm-affected properties - approximately 30 homes	\$3,204,462.00
City of Patton Village	Montgomery	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events	\$473,136.00
City of Pearland	Galveston	facilitating proper storm water conveyance and reducing the impact of future flooding	\$2,657,147.00
City of Pearland	Galveston	buyouts of storm-affected properties - approximately 16 homes	\$2,727,372.00
City of Pine Forest	Orange	acquisition of storm-affected properties - approximately 10 homes	\$2,000,000
City of Pinehurst	Montgomery	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events	\$6,892,401.36
City of Plum Grove	Liberty	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events	\$405,290.00
City of Point Comfort	Calhoun	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events; water Infrastructure improvements to ensure the city has enough potable water storage and pipe pressure during emergency situations.	\$1,031,252.00.
City of Port Lavaca	Calhoun	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events	\$5,113,395.00
City of Port Neches	Jefferson	water Infrastructure improvements to ensure the city has enough potable water storage and pipe pressure during emergency situations.	\$2,965,377.56
City of Portland	San Patricio	facilitating proper storm water conveyance and reducing the impact of future flooding	\$2,540,072.00
City of Prairie View	Waller	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$742,061
City of Richwood	Brazoria	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$602,578.00

City of Robstown	Nueces	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$100,000
City of Rockport	Aransas	facilitating proper storm water conveyance and reducing the impact of future flooding	\$7,572,632.00
City of Rose Hill Acres	Hardin	acquisition of storm-affected properties	\$2,000,000.00
City of Rose City	Orange	acquisition of storm-affected properties - approximately 11 homes	\$2,000,000.00
City of Roseberg	Fort Bend	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events	\$298,611.00.
City of Santa Fe	Galveston	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events and reducing the impact of future flooding	\$1,389,501
City of Seadrift	Calhoun	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$1,536,581
City of Sealy	Austin	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$194,936.00
City of Shepherd	San Jacinto	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$109,768
City of Shiner	Lavaca	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events	\$272,693.00
City of Silsbee	Hardin	buyout of storm-affected properties - approximately 8 homes	\$1,200,005.56
City of Silsbee	Hardin	facilitating proper storm water conveyance and reducing the impact of future flooding	\$718,806.38
City of Simonton	Fort Bend	street improvements, facilitating proper storm water conveyance	\$516,432.00
City of Sinton	San Patricio	improve critical sewer and wastewater infrastructure	\$475,228.00
City of Smiley	Gonzales	facilitating proper storm water conveyance, provide continued street access during rain events and reducing the impact of future flooding	\$595,907
City of Somerville	Burleson	improve drainage and stormwater infrastructure	\$167,101.00.
City of Sour Lake	Hardin	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations, facilitating proper storm water conveyance, provide continued street access during rain events	\$2,325,172.50
City of Sour Lake	Hardin	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations, facilitating proper storm water conveyance, provide continued street access during rain events	\$2,325,172.50
City of Taft	San Patricio	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events	\$283,664.00
City of Texas City	Galveston	buyouts of storm-affected properties - approximately 20 homes	\$2,270,138
City of Texas City	Galveston	facilitating proper storm water conveyance and reducing the impact of future flooding	\$2,211,686.00
City of Todd Mission	Grimes	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events	\$167,101.00
City of Victoria	Victoria	buyouts of storm-affected properties - approximately 30 homes	\$2,441,508
City of Victoria	Victoria	improve drainage and stormwater infrastructure	\$6,056,722
City of Vidor	Orange	street improvements, facilitating proper storm water conveyance, and a planning study for slum and blight removal	\$5,649,867.00
City of Vidor	Orange	buyouts of storm-affected properties - approximately 20 homes	\$2,572,057.00
City of Waelder	Waelder	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$623,785.00
City of Wallis	Austin	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$427,602
City of West Columbia	Brazoria	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$159,795
City of West Orange	Orange	acquisition of storm-affected properties - approximately 20 homes	\$3,041,446.86
City of West Orange	Orange	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events	\$7,336,821.30
City of Wharton	Wharton	buyouts of storm-affected properties - approximately 20 homes	\$1,693,784
City of Wharton	Wharton	facilitating proper storm water conveyance, provide continued street access during rain events and reducing the impact of future flooding	\$1,650,172
City of Woodbranch Village	Montgomery	new generator at the Woodbranch Village water treatment facility.	\$249,958.00
City of Yoakum	DeWitt/Lavaca	street improvements, facilitating proper storm water conveyance	\$1,416,383
City of Yorktown	DeWitt	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events	\$793,105.00
Brazoria County	Brazoria	excavation of Oyster Creek Detention Pond; facilitating proper storm water conveyance	\$10,916,934
Aransas County	Aransas	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events; water Infrastructure improvements to ensure the city has enough potable water storage and pipe pressure during emergency situations; new radio tower; planning study for protected fiber optic loop	\$43,390,628.00

Fayette County	Fayette	water distribution line infrastructure improvements to provide optimum water service	\$929,021
Fort Bend County	Fort Bend	buyouts of storm-affected properties - approximately 100 homes	\$21,155,575
Galveston County	Galveston	facilitating proper storm water conveyance, provide continued street access during rain events and reducing the impact of future flooding	\$3,399,435
Goliad County	Goliad	buyouts of storm-affected properties - approximately 6 homes	\$1,583,333.00
Gonzales County	Gonzales	water facility infrastructure for emergency situations	\$903,466.00
Gonzales County	Gonzales	acquisition of storm-affected properties - approximately 6 homes	\$1,667,714.00
Grimes County	Grimes	buyouts of storm-affected properties - approximately 17 homes	\$1,512,129
Grimes County	Grimes	facilitating proper storm water conveyance and reducing the impact of future flooding	\$334,202.78
Jasper County	Jasper	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events and reducing the impact of future flooding	\$1,298,067.00
Jasper County	Jasper	buyouts of storm-affected properties - approximately 49 homes	\$6,820,960.00
Jefferson County	Jefferson	facilitating proper storm water conveyance, widening of Taylor's Bayou	\$2,523,443.77
Jefferson County	Jefferson	buyouts of storm-affected properties - approximately 20 homes	\$2,651,308.80
Karnes County	Karnes	improve drainage and stormwater infrastructure	\$74,177
Karnes County	Karnes	buyouts of storm-affected properties - approximately 12 homes	\$1,725,606.00
Lavaca County	Lavaca	facilitating proper storm water conveyance, provide continued street access during rain events	\$400,454.00
Lee County	Lee	buyouts of storm-affected properties - approximately 5 homes	\$1,000,000
Liberty County	Liberty	facilitating proper storm water conveyance, provide continued street access during rain events and reducing the impact of future flooding	\$4,921,503
Liberty County	Liberty	buyouts of storm-affected properties - approximately 64 homes	\$6,743,065
Matagorda County	Matagorda	street improvements, facilitating proper storm water conveyance	\$6,948,605.00
Milam County	Milam	buyouts of storm-affected properties - approximately 11 homes	\$1,384,055.00
Montgomery County	Montgomery	flood and drainage improvements; acquisition of storm-affected properties - approximately 24 homes	\$11,199,922.72
Montgomery County	Montgomery	buyouts of storm-affected properties - approximately 48 homes	\$12,896,489
Newton County	Newton	facilitating proper storm water conveyance, provide continued street access during rain events and reducing the impact of future flooding	\$1,609,719
Newton County	Newton	buyouts of storm-affected properties - approximately 56 homes	\$8,005,224
Nueces County	Nueces	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$4,644,431
Orange County	Orange	buyouts of storm-affected properties - approximately 17 homes	\$4,042,406.17
Polk County	Polk	buyouts of storm-affected properties - approximately 50 homes	\$4,746,977
Polk County	Polk	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events and reducing the impact of future flooding	\$995,241
Sabine County	Sabine	Hydrologic and Hydraulic evaluation of crossings that frequently flood throughout the county to address future flood and drainage issues and help reduce the impact of future flooding.	\$160,124
San Jacinto County	San Jacinto	buyouts of storm-affected properties - approximately 111 homes	\$11,807,489.00
San Jacinto County	San Jacinto	facilitating proper storm water conveyance, provide continued street access during rain events and reducing the impact of future flooding	\$2,155,799.00
San Patricio County	San Patricio	facilitating proper storm water conveyance and reducing the impact of future flooding	\$2,037,215.00
Texas City	Galveston	facilitating proper storm water conveyance, provide continued street access during rain events	\$2,211,686.00
Town of Bayside	Refugio	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events	\$720,132.00
Town of Fulton	Aransas	facilitating proper storm water conveyance and reducing the impact of future flooding	\$4,759,465.00.
Town of Holiday Lakes	Brazoria	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events and reducing the impact of future flooding	\$599,008
Town of Refugio	Refugio	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events and reducing the impact of future flooding	\$8,419,112.00
Town of Woodloch	Montgomery	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$249,948
Town of Woodsboro	Refugio	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events	\$1,245,322.00
Tyler County	Tyler	buyouts of storm-affected properties - approximately 38 homes	\$3,486,382
Victoria County	Victoria	facilitating proper storm water conveyance and reducing the impact of future flooding	\$3,515,651
Village of Jones Creek	Brazoria	facilitating proper storm water conveyance and reducing the impact of future flooding	\$200,859
Tyler County	Tyler	facilitate proper functioning of critical wastewater-system components to reduce the impact of sewage contamination and back flow in emergency situations	\$757,502
Waller County	Waller	buyouts of storm-affected properties - approximately 14 homes	\$2,244,015
Waller County	Waller	street improvements, facilitating proper storm water conveyance, provide continued street access during rain events	\$4,036,599.00
Wharton County	Wharton	buyouts of storm-affected properties - approximately 19 homes	\$2,243,565
Wharton County	Wharton	planning study and facilitating proper storm water conveyance, proper sewer functioning	\$2,028,234
