

Local Hazard Mitigation Plans Program

The \$25,000,000 Local Hazard Mitigation Plan Program (LHMPP) assists eligible entities by providing grants to develop or update local hazard mitigation plans, or to provide cost share for hazard mitigation planning activities funded through other federal sources. Community Development Block Grant Mitigation (CDBG-MIT) funds allocated by the United States Department of Housing and Urban Development (HUD), and administered by the Texas General Land Office (GLO) fund these planning activities, and the Hazard Mitigation Plan development and approval oversight is administered by the Federal Emergency Management Agency (FEMA) and administered by the Texas Division of Emergency Management (TDEM). Grant awards will range from \$20,000 – \$100,000. Application intake will begin on July 28, 2021, and will be processed for eligibility on a first come, first served basis until July 2027 or until funding is exhausted, whichever is first.
