FLOODING CAN HAPPEN ANYWHERE

PROTECT YOUR FAMILY THIS HURRICANE SEASON

KNOW.
Know your flood risk.
Learn whether you live, work, or travel through areas that are prone to flooding. To help communities understand their risk of flooding, the Federal Emergency Management Agency (FEMA) creates flood maps (Flood Insurance Rate Maps, or FIRMs) to show the locations of high-risk, moderate-to-low risk, and undetermined risk areas.

PROTECT.
Protect your property and manage your risk.
Talk to your insurance agent about buying flood insurance. Flood insurance is available for homeowners, renters, and business owners. Because homeowners insurance policies do not typically cover flood losses, you will need to purchase separate flood insurance if your property is at risk of flooding.

DISCUSS.
Discuss what you have done to prepare with your family, friends, neighbors, and colleagues.
Talk about preparedness with others will help you think through your plans, share information about alerts and warnings, and share tips for protecting property. Talking about disasters and helping others prepare makes everyone safer.
