

# BE PREPARED, STAY PREPARED

## Know your flood risk before it's too late

### **Sign up for your community's warning system.**

The Emergency Alert System (EAS) and National Oceanic and Atmospheric Administration (NOAA) Weather Radio also provide emergency alerts.

### **Gather supplies in case you have to leave immediately or if services are cut off.**

Keep in mind each person's specific needs, including medication. Don't forget the needs of pets. Obtain extra batteries and charging devices for phones and other critical equipment.

### **Protect your property.**

Move valued items to higher levels. Declutter drains and gutters. Install check valves. Consider a sump pump with a battery.

### **Obtain flood insurance.**

Homeowner's policies do not cover flooding. Get good coverage under the National Flood Insurance Program (NFIP).
