Re: Central Texas Council of Governments Method of Distribution (MOD) Approval — 2017 Hurricane Harvey CDBG-DR Funds

Dear Mr. Reed:

The Texas General Land Office Community Development and Revitalization Program (GLO-CDR) has completed its review of materials submitted in support of Central Texas Council of Governments’ (CTCOG) proposed MOD for the Community Development Block Grant Disaster Recovery (CDBG-DR) funds reserved for communities affected by Hurricane Harvey. We are happy to inform you that CTCOG’s MOD submitted on July 13, 2018, with supplemental material submitted on July 30, 2018, and August 8, 2018, is approved.

GLO-CDR approves CTCOG’s proposed allocation of 100 percent of the Local Buyout and Acquisition Program and Local Infrastructure Program funds to Milam County, the only county within CTCOG’s area eligible for funds. GLO-CDR is approving the MOD despite shortcomings in CTCOG’s public participation process due to the straightforward nature of the allocation. The terms of the approval are noted below:

1. As part of the project application process, Milam County is required to hold a public hearing and conduct outreach to local governments; housing advocacy organizations; faith-based organizations; community groups representing protected classes and vulnerable populations; groups interested in fair housing issues; and limited English proficient (LEP) persons.

2. Acceptance of the MOD does not indicate eligibility or approval of funding for any proposed projects.

3. CTCOG’s allocation must meet the requirement that 70 percent of funds benefit low- to moderate-income persons. Projects that do not meet HUD’s national objective for benefitting low- to moderate-income persons may not be approved until this allocation requirement is met.

4. Acceptance of the MOD does not indicate approval of any proposed re-allocation recommendations.

Citizen Participation

Below is a description addressing how the COG complied with their Citizen Participation Plan regarding citizen and non-governmental organization outreach, and any additional efforts exceeding GLO minimum public participation requirements:

Prior to development of the proposed Method of Distribution, CTCOG conducted a public hearing planning meeting in Cameron, TX, at the Milam County Courthouse. Comments were also accepted by mail, email, or fax. A Solicitation of Public Comment notice was published in English and Spanish in the Cameron Herald newspaper. Notices were sent to the County Judge and County Emergency management Coordinator for Milam County and the notice was posted publicly in the same location that meetings of the County Commissioners Court are posted. The notice was posted at the CTCOG office in an area that is available for public viewing 24 hours a day. The notice was also posted on CTCOG’s website. Notices were also emailed to identified impacted individuals. Following the first public hearing, CTCOG drafted this document with insight and feedback that had been provided to the COG. In addition to the initial public hearing for input regarding the development of the MOD, once the draft MOD was posted, a public comment period of 14 days, 6/29/2018-7/13/2018, was open. During this period there was a second public hearing, on the 6th of July at the Milam County Courthouse from 12pm-2pm, for the public to provide any additional feedback on the draft MOD. No feedback was received at the public hearing.

Long-Term Planning and Recovery
Below is an explanation of how the COG’s method of distribution fosters long-term community recovery that is forward-looking and focused on permanent restoration of infrastructure, housing and the local economy and primarily, how these activities will contribute to the long-term recovery and restoration of housing in the HUD-identified most impacted and distressed areas and/or other impacted areas.

CTCOG has been tasked with developing the Method of Distribution for the Buyout/Acquisition and Local Infrastructure programs.

Buyout/Acquisition: The Buyout/Acquisition program supports hazard mitigation, floodplain management goals, and resiliency by removing homeowners from the floodplain, thus eliminating vulnerability to future flooding situations. This program will help prevent repetitive loss and extreme risk to human health and safety. Milam County will administer the program under the guidelines established by GLO and HUD. Subject to approval by GLO, Milam County may work on behalf of communities across the county.

Local Infrastructure: Restoration, repair, and enhancement of local infrastructure is vital not only for the long-term recovery and restoration of housing but for the long-term recovery and viability of communities. All eligible activities will be allowed. Decisions about specific projects to be undertaken will be made by the governing board of Milam County, with input from the residents of their jurisdictions and in conformity with program guidelines established by GLO and HUD.

Unmet Housing Needs
Below is an explanation of how unmet housing needs will be addressed or how economic revitalization or infrastructure activities will contribute to long-term recovery and restoration of housing in the HUD-identified most impacted and distressed areas and/or other impacted areas.

The Buyout/Acquisition program will address unmet housing needs of the most vulnerable survivors – those living within the floodplain. This program will improve resiliency, prevent repetitive loss, and reduce extreme risk to human health and safety.

The Local Infrastructure program will contribute to long-term recovery and restoration of housing in the HUD-identified most impacted and distressed areas and all other areas by restoring, repairing and enhancing critical infrastructure that provides services and access to homes. This includes roads, bridges, drainage systems, water and sewer, communication systems, backup power systems and other eligible projects.

Affirmatively Furthering Fair Housing Statement
All subrecipients will certify that they will affirmatively further fair housing (“AFFH”) in their grant agreements, and will receive GLO training and technical assistance in meeting their AFFH obligations. Additionally, all project applications will undergo AFFH review by GLO before approval of projects. Such review will include assessment of a proposed project’s area demography, socioeconomic characteristics, housing configuration and needs, educational, transportation, and health care opportunities, environmental hazards or concerns, and all other factors material to the AFFH determination. Applications should show that projects are likely to lessen area racial, ethnic, and low-income concentrations, and/or promote affordable housing in low-poverty, nonminority areas in response to natural hazard related impacts.
Low-to Moderate Income Requirement

Below is an explanation of how the method of distribution meet the 70 percent low-to moderate income (LMI) requirement for each program. This means that 70 percent of the funds must benefit areas that are 51% or more LMI households or benefit households with incomes below 80% of the Area Median Income (AMI).

This Method of Distribution requires that all subrecipients to which funds are allocated must adhere to all program rules as established by GLO and/or HUD. The rules currently include a requirement that at least 70 percent of the funds must benefit areas that are 51% or more LMI households or benefit households with incomes below 80% of the Area Median Income (AMI). Subrecipients must obtain a waiver from GLO and/or HUD in order to deviate from GLO/HUD rules.

Local Buyout and Acquisition Program Method of Distribution Detail

The COG is required to prepare a method of distribution for the local buyout and acquisition program funds between the eligible cities, counties, and entities with eminent domain authority. The GLO has directed the COG to use a direct allocation technique based on objective and verifiable data.

Citizen and Non-Governmental Organization Outreach

The COG will encourage citizens, with particular emphasis on persons of low-to-moderate income and other vulnerable populations to submit their views regarding community development and housing needs resulting from the disaster(s) in the following ways:

Utilization of forms provided at the COG, Online via the COG website and social media platforms, and in person at public hearings. Notification for these public hearings will be posted in the Cameron Herald and Rockdale Reporter in both English and Spanish. In addition to the public hearings CTCOG will directly contact the County Judge and county Emergency Management Coordinator. Once the County Judge and EMC have been notified, additional contacts will be made with officials for cities located within Milam county as well as local nonprofit organizations that provide assistance to vulnerable populations.
The following local organizations that provide services or housing for low-to-moderate income persons, including but not limited to, the local Public Housing Authorities, the local Health and Human Services offices, the local mental health and MHMR offices, Community Development Corporations and Community Housing Development Organizations, will receive written notification concerning the date, time, location and topics to be covered at the method of distribution public hearings:

In addition to the aforementioned agencies, CTCOG will also notify Lone Star Legal Aid, Texas Low Income Housing Information Service, and Texas Appleseed to ensure fair housing and civil rights concerns are addressed through the process.

The COG acknowledges that language differences may play a role in effectively reaching non-English speaking residents. The COG will address these potential barriers by providing notification efforts as follows:

While the COG acknowledges languages differences may play a role in effectively reaching non-English speaking residents there is limited anticipation that language differences will be a problem. Although there is not much anticipation, the COG will provide both English and Spanish language comment forms as well as public notices, and will address other languages on a case by case basis. If other languages are requested, CTCOG will provide reasonable accomodations for those that wish to participate. If any languages other that English are required instruction will be provided in communications to contact CTCOG at least 48 hours in advance by calling 254-770-2373 or emailing uryan.nelson@ctcog.org.
Public Hearing Content
The public hearings will include a discussion of the following topics:
