DEFINITIONS

44 CFR 201: Code of Federal Regulations that provides information regarding the policies and procedures for mitigation planning as required by the provisions of section 322 of the Stafford Act, 42 U.S.C. 5165.

Action Plan: The public document required by HUD that details the State of Texas’s storm recovery programs and allocation of CDBG-DR and CDBG MIT funding.

Applicant: Any unit of local government (cities and counties), Indian tribes, councils of governments, including entities coordinating jointly across jurisdictional boundaries, located in an eligible HUD MID or State MID area, who apply for assistance through the Local Hazard Mitigation Plans Program.

Approval Pending Adoption: Designation provided by the Federal Emergency Management Agency (FEMA), which means the hazard mitigation plan has been reviewed by the State Department of Emergency Management and FEMA. The HMP meets all requirements set for by 44 CFR 201.6, with the exception of being adopted by the local jurisdiction.

Approved: Designated provided by FEMA, which means the HMP meets all requirements set for by 44 CFR 201.6 and has been adopted by the local jurisdiction.

Authorized Signatory: Person who has been authorized to sign documents and has the power to sign the organization to an agreement that is binding.

Conflict of Interest: occurs when an individual’s personal interests: family, friendships, financial, or social factors: could compromise his or her judgment, decisions, or actions.

Cost Share: Also known as “non-Federal share,” or “match,” is the portion of the costs of a federally assisted project or program not borne by the Federal Government.

Council of Governments (COG): Voluntary organizations of local governmental entities that coordinate programs and services to address needs that cross jurisdictional boundaries.

Department of Housing and Urban Development (HUD): The federal department through which the CDBG-MIT program funds are administered, monitored, and distributed to grantees.

Duplication of Benefits: Also known as DOB, is used to describe assistance that is from more than one source and that is used for the same purpose or activity. The purpose may apply to the entire project or only part of it. DOB may apply when assistance for the same purpose has been received or will be received.

DUNS Number: The D-U-N-S (data universal numbering system) number is a unique nine-digit identifier for organizations. DUNS numbers are used by the federal government to keep track of how federal funds are allocated. It is used to create a business’s credit profile.
**Federal Debarment:** an action to preclude individuals and entities from receiving federal financial and nonfinancial assistance and benefits under federal programs and activities for a designated period of time.

**Federal Suspension:** a temporary exclusion action which lasts until the conclusion of the criminal or administrative proceedings upon which the action is based, or for 12 months or 18 months if the prosecuting official justifies an extension in writing.

**Grant Management Plan:** the document that outlines the applicant’s approach to addressing all elements required to deliver a successful and eligible project. At minimum, the Grant Management Plan shall include:

- Detail of the project’s objectives and goals
- A list of actions and responsible persons to achieve the goals and objectives along with a timeline for the various stages of the project
- A process to handle project implementation
- A process to handle financial management and contract administration
- Staff/partner organizational chart showing all key stakeholders who will administer and execute an award
- A process to handle staff/partner personnel changes and duty transfers

**Hazard Mitigation Plan (HMP):** a comprehensive document that contains detailed information about the types of hazards a community faces, and the actions that can occur before disaster strikes to reduce the community’s vulnerability. Once the HMP is developed/updated, reviewed, and approved by the Federal Emergency Management Agency (FEMA), a community will obtain and/or keeps its eligibility to apply for FEMA mitigation grants. Plan must be updated every 5 years.

**Hazard Identification Risk Assessment:** a risk assessment is a process by which a local government identifies potential hazards and analyzes what could happen if a hazard occurs and also the results of when a hazard occurred.

**HUD MID:** a HUD-identified Most Impacted and Distressed Area. As required by HUD’s Federal Register notice, 84 FR 45838 (August 30, 2019), the GLO will allocate at least 50 percent of the funds to address mitigation needs within these areas.

**Identified Risk:** the top risks to which Texas has the greatest exposure. Each proposed project must mitigate against at least one of the following identified risks. For 2015 and 2016 Floods State Mitigation Competitions: severe coastal flooding, riverine flooding, storms, and tornadoes. For the Hurricane Harvey State Mitigation Competition: hurricanes/tropical storms/tropical depressions, severe coastal flooding, and riverine flooding.

**Local Government:** per 44 CFR 201.2, FEMA defines a local government as any county, municipality, city, town, township, public authority, school district, special district, intrastate district, council of governments (regardless of whether the council of governments is incorporated as a nonprofit corporation under State law), regional or interstate government entity, or agency or instrumentality
of a local government; any Indian tribe or authorized tribal organization, or Alaska Native village or organization; and any rural community, unincorporated town or village, or other public entity.

**Local Hazard Mitigation Plans Program:** a program created by partnering with the Texas Division of Emergency Management (TDEM) to provide CDBG-MIT funds for the development of an enhanced State of Texas Hazard Mitigation Plan (enhanced SHMP), as well as providing funds for the development of Hazard Mitigation Plans (HMPs) for eligible areas.

**MID:** an acronym for Most Impacted and Distressed Areas. See also, HUD MID and State MID.

**Multijurisdictional HMP:** when there are multiple governmental jurisdictions participating in the development of update of the HM Plan.

**Participating Jurisdiction:** a jurisdiction that has agreed to be a part of, as well as contribute to, the development of the multi-jurisdictional plan. They hold no direct administrative/grant responsibility. Participating Jurisdictions are not eligible to apply to develop or update a sub-section in a multi-jurisdictional HMP. Instead, an application for the entire HMP should be submitted by the multi-jurisdictional plan’s Responsible Jurisdiction.

**Preliminary Draft Plan:** a sub-element of the overall planning process used to produce updates to particular sections of the HMP to reflect the results of the HMP development or the HMP Update activities. This deliverable will encompass all of the requirements contained in the Planning Process and Risk Assessment sections.

**Responsible Jurisdiction:** the jurisdiction that will lead and manage the HM Planning process from application development through project completion.

**Request for Information:** a request for additional documentation or information—made by the GLO to Applicants whose applications have been reviewed—needed to make a final application eligibility determination.

**Request for Qualifications:** a document that asks potential suppliers or vendors to detail their background and experience providing a specific good or service.

**SAM Search:** system for Award Management lookup to determine an Applicant's federal grant eligibility.

**SF-424:** an application for federal assistance and is required in federal grant applications. This form collects information including type of submission, Applicant information, type of Applicant, and proposed project dates.

**Scope of Work:** division of work to be performed to complete a project including, work activities and other programmatic obligations.

**Single jurisdictional HMP:** when only one governing body participates in the development or update of a HMP.
**Special Purpose Districts**: independent, special-purpose governmental units that exist separately from local governments such as county, municipal, and township governments, with substantial administrative and fiscal independence. Special purpose districts include but are not limited to municipal utility districts, water control and improvement districts, special utility districts, flood and drainage districts, navigation districts, port authorities, and river authorities.

**State MID**: areas designated by the state to be Most Impacted and Distressed, which received a 2015 Floods, 2016 Floods, or Hurricane Harvey Presidential disaster declaration but were not classified as Most Impacted and Distressed Areas by HUD.

**Subrecipient**: a non-federal entity that receives a subaward from a pass-through entity to carry out part of a federal program. For the 2015 and 2016 Floods, and Harvey State Mitigation Competitions, the subrecipients are the Applicants. They include: Cities, Counties, Indian Tribes, Council of Governments, State Agencies, Special Purpose Districts, Port Authorities, and River Authorities.

**TIGR**: an acronym for the Texas Integrated Grant Reporting System. As the TX GLO’s grant reporting system of record, it houses all applications and application documents.

**Unit of Government**: any department or agency of the federal government; any state or agency, office, or department of a state; and any city, county, district, commission, authority, entity, port, or other public corporation, organized and existing under statutory law or under a voter-approved charter or initiative.
ACRONYMS

APA – Approved Pending Adoption
APP – Approved
BRIC – Building Resilient Infrastructure and Communities Project Grant
CDBG – Community Development Block Grant
CDBG-DR – Community Development Block Grant – Disaster Recovery
CDBG-MIT – Community Development Block Grant - Mitigation
CFR – Code of Federal Regulations
COI – Conflict of Interest
COG – Councils of Governments
DOB – Duplication of Benefits
DR – Disaster Recovery or Disaster Declaration Number (alphabetic designation or precursor for)
FEMA – Federal Emergency Management Agency
FMA – Flood Mitigation Assistance Program
GIS – Geographic Information System
HIRA – Hazard Identification Risk Assessment
HHPD – Rehabilitation of High Hazard Potential Dams
HMP – Hazard Mitigation Plan
HMA – Hazard Mitigation Assistance
HMGP – Hazard Mitigation Grant Program
HHPD – Rehabilitation of High Hazard Potential Dam Program
HUD – U.S. Department of Housing and Urban Development
HUD-MID – Housing and Urban Development Moderate-Income Data
ICC – International Code Council
LHMPP – Local Hazard Mitigation Plans Program
MJHMP – Multijurisdictional Hazard Mitigation Plan
POP – Period of Performance
RFQ – Request for Qualifications
RFP – Request for Proposal
SOP – Standard Operating Procedures
SOW – Scope of Work
TDEM – Texas Department of Emergency Management
TIGR – Texas Integrated Grants Reporting System
INTRODUCTION

The $25,000,000 Local Hazard Mitigation Plans Program (LHMPP) assists eligible entities through providing grants to develop or update local hazard mitigation plans, or to provide cost share for hazard mitigation planning activities funded through other federal sources. CDBG-MIT funds administered by HUD and implemented through the Texas General Land Office fund these planning activities, and the Hazard Mitigation Plan development and approval oversight is administered by FEMA and implemented through the Texas Division of Emergency Management. Grant awards will range from $20,000 - $100,000. Application intake will begin on July 28, 2021 and will be processed for eligibility on a first come, first served basis until July 2027 or until funding is exhausted, whichever is first.

This document – the LHMPP Application Guide - is the main resource for governmental entities interested in the program. The document includes detailed information on eligible activities, eligibility criteria, and how to apply. Prospective Applicants are encouraged to review this document prior to applying for the program, as well as during the creation and submission of an application. This document also includes important preliminary information regarding the steps following the applications, including award, contract, deliverables, and reimbursement process. Prospective Applicants are encouraged to review these sections in order to know what to expect after application submittal.

ELIGIBLE ACTIVITIES

- Hazard Mitigation Plan Development * - Develop a Local Hazard Mitigation plan that identifies, assesses, and reduces long-term risks to life and property from hazard events, or provide cost share (local match) for funding previously awarded to do the same from FEMA

- Hazard Mitigation Plan Update * - Update a current local Hazard Mitigation Plan that is within 2 years of expiration, or provide cost share (local match) for funding previously awarded to do the same from FEMA

* may include studies to enhance a community's understanding of risk

The following sections provide a description of each eligible activity.

Hazard Mitigation Plan Development

Eligible governmental entities without a valid HMP can apply for funds under this program to develop one. HMPs are prepared and adopted by communities with the primary purpose of identifying, assessing, and reducing the long-term risk to life and property from hazard events. Effective mitigation planning can break the cycle of disaster damage, reconstruction, and repeated damage.
Developing and approving HMP will allow governmental entities to become eligible and apply for federal and state funding.

Although GLO is providing the funding for developing HMPs, the local community will coordinate the HMP development process directly with the Texas Division of Emergency Management (TDEM).

**Hazard Mitigation Plan Update**

HMPs must be updated every 5 years in order to maintain eligibility for various funding sources. Eligible governmental entities can apply for funds to update their HMP. Updating an HMP means reviewing and revising the plan to reflect changes in development, progress in local mitigation efforts, and changes in priorities. The planning team must identify how, when, and by whom the plan will be updated.

Having an up-to-date HMP will allow governmental entities to continue to be eligible and apply for federal and state funding.

Although GLO is providing the funding for updating HMPs, the local community will coordinate the HMP update or development process directly with the Texas Division of Emergency Management (TDEM).
ELIGIBLE CRITERIA

General Criteria

- Applicant must fall under FEMA’s Definition of a local government as per 44 CFR 201.2, which states: Local government is any county, municipality, city, town, township, public authority, school district, special district, intrastate district, council of governments (regardless of whether the governments is incorporated as a nonprofit corporation under State law), regional or interstate government entity, or agency or instrumentality of a local government; any Indian tribe or authorized tribal organization, or Alaska Native village or organization; and any rural community, unincorporated town or village, or other public entity.
- Applicant must be located in federally declared counties or ZIP codes from Hurricane Harvey (DR-4332, August 2017), 2016 Floods (DR-4272, June 11, 2016) (DR-4269, April 25, 2016) (DR-4266, March 19, 2016) and 2015 Floods (DR-4223, May 29, 2015) (DR-4245, November 25, 2015). The list of specific counties and ZIP codes is included in the State of Texas CDBG-MIT Action Plan (p.286-287) and in the Action Plan Summary (p.5-6), both available at: https://recovery.texas.gov/action-plans/mitigation-funding/index.html.
- Applicant must have an active record with the U.S. Government System for Award Management (SAM) and must not be delinquent on any federal debt. Additionally, they must not have been suspended or debarred by the federal government.
- To be eligible for an award, Applicants must demonstrate that between the LHMPP grant and other funds, if any, the entire cost associated with the proposed activities will be completely covered.
- Applicant must apply for a LHMPP grant amount between $20,000 - $100,000.
- Applicant must reveal if any other funds have been received or will be received toward developing a new or updating a HMP to avoid any duplication of benefits.
- Applicant must reveal any potential conflicts of interest.
- Applicant must complete application in its entirety with all required supporting documentation.

Activity-Specific Criteria

New Hazard Mitigation Plan Development

- Applicant must have no HMP or must have an expired HMP.

Hazard Local Mitigation Plan Update

- Applicant must have an adopted HMP expiring within 2 years from the submission of the application.
- Applicant must show proof of adoption of their current HMP, i.e., adoption resolution.
Special Circumstances

Cost Share
Applicants that have already acquired or applied for other federal funds (such as FEMA funds), can utilize the LHMPP Grant to cover any required cost share. Cost share, also known as “non-federal share” or “local match”, is the portion of the costs of a federally assisted project or program not borne by the Federal Government. Applicants that apply to LHMPP for cost-sharing purposes will have to provide required details in the application form.

Cost share requirements vary by federal program, usually ranging from 1% to 25% of the total project cost. If the LHMPP Grant is utilized as a cost share, the LHMPP amount requested must also meet the minimum cost-share requirements set by the applicable federal program.

Fulfilling Part of Another Entity’s HMP
A grant cannot be awarded to an entity to update a sub-section in a multi-jurisdictional HMP. Instead, an application to update the entire HMP should be submitted by the responsible multi-jurisdictional entity. LHMPP Applicants must be the Responsible Jurisdiction.

Requirements for Multi-jurisdictional Applicants
If an Applicant is a multi-jurisdictional entity (for example a COG, a group of counties, or a group of cities) the Applicant is required to obtain approval from all parties involved in the proposed activity. Supporting documentation needs to be attached to the application.

Branching off a Multi-jurisdictional HMP
A local community participating in a multijurisdictional HMP wishing to develop its own HMP is eligible to apply to this program. In this scenario, the community should apply under New HMP Development, not under HMP Update. The application can be submitted at any time, not just in the two-year window prior to the current HMP’s expiration date. The Applicant may include documentation with their LHMPP application that indicates the Applicant has notified the previous Responsible Jurisdiction about the Applicant’s discontinuation of participation.

Re-Applying to the Program After Receiving an Award
Applicants that receive funding and adopt approved HMPs may apply again to this Program in the two years prior to the expiration of the HMP, provided that funds remain, and the Program is still running. For more information, see Program Duration section.

Program Duration
This Program will launch on July 28, 2021. Because local HMPs operate on a 5-year cycle, the application period for the Program will remain open for six (6) years and until funds are exhausted.
SUBMITTING AN APPLICATION

Requesting a User Account

Before starting an application, the Applicant must first create a disasTRAX user account. The user account can be requested either by the applicant (e.g., a representative or employee of the applying community), or by their agent (e.g., a consultant). The requester must not already have a disasTRAX account. If requester already possesses a disasTRAX account, requester should contact shenetia.henderson.ctr@recovery.texas.gov for further guidance.

The following explains how to request and obtain an account.

1. Go to: https://dmsrecovery.quickbase.com/db/brkp4bbka?a=nwr&ifv=1

2. Enter a valid email address. Enter first and last name of the requester (see image below).
3. Scroll down, read the Term of Service and Privacy Policy, check the box to confirm reading and agreeing to the Term of Service and Privacy Policy, and then Click "Submit Request" (see image below).

4. A verification email will be sent to the address provided. Click the link in the email to continue the registration process (see image below).

5. After clicking the link, you will be asked to re-enter the email for verification purposes. Re-enter email and click Next (see image below).

6. Set up a password and a security question. Check the box to confirm reading and agreeing to the Quickbase Terms of Service and the Quickbase Privacy Policy. Click Register (see image below).

7. A verification email will be sent to the address provided. Email will come from corpsales@quickbase.com. Click the link in the email to complete the registration.
8. You’ll be then asked to enter your password. Enter your password and click verify (see image below).

9. You will land onto the "Local Hazard Mitigation Plans Program Application" website. Bookmark the website you are on (https://dmsrecovery.quickbase.com/db/brkqdsyve) for future reference. This website is where Applicants can create and complete an LHMPP application.

Creating and Completing an Application

1. Go to: https://dmsrecovery.quickbase.com/db/brkqdsyve and log in using the previously created user account credentials. If you are already logged in, please ignore this step and continue reading.
2. Click on “Local Hazard Mitigation Plans Program Application” icon (see image below).

3. To start an LHMPP Application, click on the word “HERE” in the “Welcome!” section (see image below).
A blank LHMPP Application Form will appear (see image below). The objective of the application form is to collect the information required to determine an Applicant’s eligibility to receive a LHMPP grant and the ability to successfully utilize the funds requested. Each application will be reviewed thoroughly and fairly, in its entirety. All requirements and objectives of the specific Federal allocation and the Texas General Land Office CDBG Mitigation (CDBG-MIT) Action Plan must be met prior to the awarding of any contract.

The LHMPP Application includes the following tabs:

1. Applicant Information
2. Funding
3. Grant Category
As you complete the application, click the green Save & Keep Working button to save your progress.

If the application cannot be completed in one session, simply save it and return to it at your convenience by visiting: https://dmsrecovery.quickbase.com/db/brkgdseyve. The Application Form is set up to require specific information based on the Grant Category for which you are applying. It is also crucial that you read the following instructions before proceeding in applying for the Program.

To complete the application, carefully follow the steps below. Note that the fields marked with a red asterisk (*) are mandatory. Please, before starting completing the application, note the two following definitions:

**Responsible Jurisdiction:** The jurisdiction that will lead and manage the HM Planning process from application development through project completion.

**Participating Jurisdiction:** A jurisdiction that has agreed to be a part of, as well as contribute to, the development of the multi-jurisdictional HMP. They hold no direct administrative/grant responsibility. Participating Jurisdictions are not eligible to apply to develop or update a sub-section in a multi-jurisdictional HMP. Instead, an application for the entire HMP should be submitted by the multi-jurisdictional plan’s Responsible Jurisdiction.

**1. Applicant Information**

Start by completing the first section of the "Applicant Information" tab (see image below).

**Applicant (Jurisdiction) Name**

Type in the name of the jurisdiction (city, county, COG, tribe, etc.) applying to the Program. As stated in the Eligibility Criteria section, Applicants must fall under FEMA’s Definition of a local government as per 44 CFR 201.2.
If the Applicant is a city, type "City of + [Name]" (e.g., City of Houston); if the Applicant is a county, type "[Name] + County" (e.g., Harris County). If the Applicant is applying for the development or update of a multi-city, -county or -other-entity hazard mitigation plan, enter the name of the Responsible Jurisdiction (lead). Note that the Applicant is the entity that will be entering in a contractual relationship with the GLO, to include application entry and submission, contract execution, project implementation, and closeout.

**Plan Title**

Enter the name that will be given to the plan that is being developed or updated (for example: "Rango County Hazard Mitigation Plan Update").

**Applicant Phone, Fax and Address**

Type in the Applicant's phone number, fax, and full address.

After completing this section of the tab click the green Save & Keep Working button to save your progress.

Continue the application by completing the next section (see image below).

**Grant Category**

Using the drop-down menu, select the LHMPP grant category associated with the application. As stated in the Eligible Activities section, this Program funds two different activity types:

- New Hazard Mitigation Plan Development
- Hazard Mitigation Plan Update

Applicant must select one of the two options above. If Applicant has never adopted a hazard mitigation plan, or has a plan that has already expired, select, ‘New Hazard Mitigation Plan Development.’ If the Applicant has a current plan expiring within the next two years, select, ‘Hazard Mitigation Plan Update.’

Select New Hazard Mitigation Plan Development if:
• The Applicant is not the responsible jurisdiction for an active HMP.
  o Either because the HMP has expired
  o Or because Applicant has no current or past HMP

Select Hazard Mitigation Plan Update if:

• The Applicant is the responsible jurisdiction for an active HMP that is expiring within two years of LHMPP application submittal date.

**Responsible Jurisdiction Type**

Using the drop-down menu, select the Applicant’s jurisdiction type. If Applicant does not fall into any other categories listed in the drop-down menu, select “other” and type in the jurisdiction type in the “If Other, please specify” box.

**Is the plan being developed or updated a multijurisdictional plan?**

Indicate whether the plan being developed or updated is a multi-jurisdictional plan. A plan is considered multi-jurisdictional when there are multiple governmental jurisdictions participating in the plan. Any plan involving a COG or more than one city, county, tribe, or other entities, is multi-jurisdictional in nature.

If answer is “yes”, click on the gold ‘Add Jurisdiction’ button and list all the jurisdictions participating in the multi-jurisdictional plan. Please note that as the Responsible Jurisdiction, the Applicant is acting on behalf of the Participating Jurisdictions to update or develop a new plan. Also Note that for the application to be deemed eligible, all participating jurisdictions must affirm that they are willing participants in the multi-jurisdictional plan and are aware the plan could be funded by this Program. The approval from the Participating Jurisdictions will be listed as a required document in the Documents section. Additionally, please note that Participating Jurisdictions are not eligible to apply to this Program to develop nor update a portion of a multi-jurisdictional HMP. Instead, an application for the entire HMP should be submitted by the multi-jurisdictional plan’s Responsible Jurisdiction.

After completing this section of the tab click the green Save & Keep Working button to save your progress.

Continue the application by completing the next section (see image below).
Has the Applicant applied for FEMA funding to develop or update a plan?

CDBG funding is a funding source of ‘last resort,’ meaning other sources of potential funding must be exhausted before CDBG funds are used. Funds awarded in this Program should be used for the purpose of covering any gaps in unmet need that may be present. If answer is “no” you’ll be required to specify why no application for FEMA funding was submitted.

Is the purpose of your proposed project to fulfill part of another entity’s HMP?

Indicate whether the purpose of the project is to fulfill part of another entity’s HMP. Note that a grant cannot be awarded to a Participating Jurisdiction to develop or update a sub-section of a multi-jurisdictional HMP. Instead, an application for the entire HMP should be submitted by the multi-jurisdictional plan’s Responsible Jurisdiction.

DUNS

To be eligible for an LHMPP award, Applicants must be registered with the U.S. Government System for Award Management (SAM). Each entity with a SAM registration is provided with a 9-digit number, called DUNS (Data Universal Numbering System). Enter your DUNS number is this field of the application form.

Note that the DUNS number entered in the application must match the DUNS number entered in the SF-424 Form, one of the required documents (see Documents tab for more information on form SF-424).

Also note that Applicants are also required to upload a printout of their SAM registration (see Documentation tab). If you do not have a SAM registration and need to register, or if you need to retrieve your registration information go to: https://sam.gov/content/home.
Are you (the Applicant) delinquent on Federal Debt?

Please indicate whether you are delinquent on federal debt. Applicants answering "yes" are required to explain the debt delinquency situation and the steps being taken to remedy debt. Any supporting documentation should be uploaded to the Documents tab.

After completing this section of the tab click the green Save & Keep Working button to save your progress.

Continue the application by completing the next section (see image below).

**Applicant Contacts**

Enter the contact information (name, phone, and email) of the Applicant, the grant administrator, the authorized representative (for example the "mayor") and the relevant county judge. If appropriate the same person can be listed more than once (for example if the authorized representative and the county judge can be same person, if needed).

After completing this section of the tab click the green Save & Keep Working button to save your progress. Then, move on to the following tab (2. Funding).

**2. Funding**

Start by filling out the Funding Information section (see image below).
In what month does the Applicant’s fiscal year end?

Indicate the last month of the Applicant’s fiscal year.

**Total Project Cost**

Enter the estimated total cost of the project. This is the estimated total cost of the project, including the CDBG-MIT funds being requested in this Application and any other funds that could be used to fund the HMP.

**Has the Applicant acquired or requested funds from sources other than CDBG-MIT?**

Using the drop-down menu, indicate whether, in addition to the CDBG-MIT funds that are being requested in this application, you also requested or acquired funds from other sources.

**No other funds acquired/requested**

If answer to the question “Has the Applicant acquired or requested funds from sources other than CDBG-MIT?” is “no”, a box will appear, and you’ll be required to provide an explanation as to why other funds have not been requested and/or acquired. Please note that CDBG funding is a funding source of ‘last resort,’ meaning other sources of potential funding must be exhausted before CDBG funds are used. Funds awarded in this Program should be used for the purpose of covering any gaps in unmet need that may be present. If answer is “no” you’ll be required to specify why no application for FEMA funding was submitted.
Other Funds acquired/requested

If answer to the question "Has the Applicant acquired or requested funds from sources other than CDBG-MIT?" is "yes", a gold button saying "Add Other Funds" will appear. Click the button and enter details for the first source, including the source name, the funding amount, the status, an explanation of how the funds will be used, and an explanation as to why no duplication of benefit (DOB) will occur. Note that a DOB would occur if the LHMPP grant amount requested plus the other funds acquired by the Applicant, now or in the future, exceeded the total project cost. Repeat this process for each funding source (click the "add other funds" button and enter the required information). Each source must be listed as a separate entry within the Other Funds table. To Delete an entry, locate the row you’d like to delete and click the checkbox that appears on the left of the source name. You will be prompted to confirm you want to delete this item. To modify an entry entered in the table, click the pencil icon on the left of the source name.

Total Other Funds Acquired

Once you are done listing the funds, the Total Other Funds Acquired will be automatically calculated and displayed below the Other Funds table. Note that this does not include any funds where the status is ‘Requested’.

Non-funded portion of project

The Non-funded portion of project will also be automatically calculated and displayed. This is equal to the Total Project Cost minus Total Other Funds Acquired.

LHMPP Grant Amount Requested

This is the amount LHMPP Grant amount requested via the application. Enter the amount manually in the dedicated box. Note that this amount cannot exceed $100,000, the maximum award amount allowed under this Program. Additionally, note that the LHMPP Grant Amount requested cannot be greater than the non-funded portion of the project cost (total project cost minus other funds already acquired). Additionally, the requested amount cannot exceed $100,000, the maximum award amount allowed under this Program. Lastly, note that for an application to be considered eligible, the sum of LHMPP Grant and the Acquired Other Funds, in any, must equal the total project cost.

Is the amount being requested part of a cost share?

Indicate if the LHMPP grant amount requested will be utilized as a cost share. See "Special Circumstances-Cost Share" section for more information about cost sharing.

Does the Applicant already have an existing grant or an open grant application from another program that funds New HMP Development and/or HMP Update?

Indicate whether Applicant has an existing grant/application that funds either New HMP Development or HMP update. If the answer is "yes", you will be prompted to provide additional
details about the afore-mentioned grant/application in the dedicated box. You also be asked to
indicate whether there is a 75% federal/25% local cost share requirement, say if you intend for the
LHMPP to provide for the 25% cost share, and provide any details in the dedicated box.

After completing this section of the tab click the green Save & Keep Working button to save your
progress.

Continue the application by completing the next section (see image below).

How do you intent to complete the work?

From the drop-down menu select whether the work will be completed by a third-party contractor or
in-house. Note that if answer is “via a third-party contractor”, procurement compliance with federal
regulations will have to be verified before the LHMPP grant is awarded. Note that if the answer is “in-
house”, you’ll be required to provide details on your organization’s capacity to complete the activity
for which the LHMPP funds are being requested.

Does the Applicant's participation in this Program present any potential conflicts of
interest?

Using the drop-down menu, indicate whether there are any potential conflicts of interest. Note that
conflict of interest occurs when an individual’s personal interest family, friendships, financial, or
social factors could compromise his or her judgment, decisions, or actions. i.e., having a personal
relationship with an individual who works for the State of Texas.

If “yes,” is selected, a box will appear where you should explain, in detail, any potential conflicts of
interest and upload any applicable supporting documentation.

After completing this section of the tab click the green Save & Keep Working button to save your
progress. Then, move on to the following tab (3. Grant Category).

3. Grant Category

Start by completing the Project Information Section (see image below).
Project Summary

In this cell provide a narrative identifying and summarizing the Program activity being proposed.

Scope of Work

In this cell, provide a thorough narrative describing the scope of work to be completed and how it serves the overall project.

As you populate the Project Summary and Scope of Work boxes, please review the Project Summary Examples, the HMP Program Information, and the Scope of Work Examples. To view these resources, click the three gold buttons below the Scope of Work.

After completing this section of the tab click the green Save & Keep Working button to save your progress.

Continue the application by completing the next section (see image below).

If the Grant Category selected (in the Application Information tab) is New Hazard Mitigation Plan Development, the following will be displayed:

Have you previously had an adopted Hazard Mitigation Plan?

Please select one of the following options:

- The plan has expired
- There is no current/past plan
• The plan is current

Using the drop-down menu indicate which of these options applies. Note that in order to be eligible for a New HMP Development Grant, an Applicant must either have an expired HMP or have no HMP at all.

If the Applicant has a current (non-expired) plan, please return to the Applicant Information Tab and change Grant Category to 'Hazard Mitigation Plan Update.'

If the Grant Category selected (in the Application Information tab) is Hazard mitigation Plan Update, the following will be displayed:

• Name of expiring Hazard Mitigation Plan

Manually enter the name of the HMP to update and provide the plan adoption and expiration date. Note that in order to be eligible for an HMP Update Grant, the HMP to update must be set to expire within 2 years of submitting the grant application.

After completing this section of the tab click the green Save & Keep Working button to save your progress. Then, move on to the following tab (4. Project Budget & Work Schedule).

4. Project Budget & Work Schedule

Start by reviewing the Project Cost/Budget Estimate section (see image below).

This section of the application is automatically populated based on previous entries and it shows the projected payments/reimbursements associated with this grant. There are three reimbursements,
amounting to 25%, 50% and 25% of the award, respectively (see the "After the Application: What to Expect" section of this guide for additional information). In the example above, the requested grant amount is $100,000 and the payments/reimbursement are $25,000, $50,000, and $25,000 respectively. This section is purely informational and requires no further action on the part of the Applicant.

After reviewing this section, move on to the Project Work Schedule(s) section (see image below).

In this section, the Applicant is required to enter the projected schedule for the proposed HMP Development/Update.

For each task, indicate the start and end month. The task duration will be calculated automatically based on the start and end month entered. Note that the Period of Performance (POP) in which the Grantee is expected to complete the grant activities and to incur and expend approved funds is 36 months (3 years).

After completing this section of the tab click the green Save & Keep Working button to save your progress. Then, move on to the following tab (5. Documents).

5. Documentation

Use this tab to upload the required documentation. A list of required documents will be generated based on the answers provided in the previous tabs. Documents are organized in six major classes: Project Documents, Environmental Documentation, Procurement Documents, Financial Documents, HMP Documents, and Other Documents. For each class, upload the required documents by clicking the "Add Document" gold button displayed under the class’s header (see image below).
After clicking the gold button, the "Add Document" window will be displayed (see image below).

![Add Document Window](image)

Using the drop-down menu, select the document type to upload. Then click the "Choose File" button to upload the document. Add any needed notes. Click "save & close" to save the uploaded document (see image below). Repeat these steps for each document until you’ve uploaded all required documents.

Below is a comprehensive list of all possible documents that might need to be uploaded. Whether these documents will be required or not will depend on the answers provided in the application.

**SF-424**

The SF-424 is a standard form used in federal grant applications to collect information including type of submission, Applicant information, type of Applicant, and proposed project dates. All applications must be accompanied by a completed and signed Application for Federal Assistance SF-424, OMB Number: 4040-0004, Expiration Date: 12/31/2022.

By completing, signing, and submitting the SF-424 with the application, each Applicant for CDBG-MIT funding is providing local certifications indicating that this Application Guide has been followed in the preparation of any CDBG-MIT program application, and that they will continue to be followed in the event of funding.

(Note: False certification can result in legal action against the jurisdiction.)

A blank form is available for download on the GLO website at:

Detailed instructions on completing the SF-424 are provided below, in Appendix A of this Guide.

**Local Certifications**

Local Certifications is a form for Applicants to affirm that certain rules and regulations were followed in preparation of this CDBG-MIT Program application.
The MIT-Local Certifications form must be signed by the local authorized signatory, submitted with the Application, and retained with the local application file. Each application must include a MIT-Local Certifications form signed by an authorized signatory.

The MIT-Local Certifications form is available on the GLO website: https://recovery.texas.gov/files/resources/mitigation/mit-local-certifications.pdf.

SAM.gov Printout or Screenshot

The System for Award Management (SAM.gov) is an official website of the U.S. Government used to register to do business with the U.S. Government; update, renew, or check the status of your entity registration; search for entity registration and exclusion records, and more.

For the purposes of this Program and as part of the Application, all Applicants must submit their Data Universal Numbering System (DUNS) Number, and a screenshot or printout of their SAM.gov Entity Dashboard. The screenshot must show that the Applicant is Active and does not have any Active Exclusion Records.

Grant Management Plan

Each Applicant for CDBG-MIT funding is expected to have assessed administrative, design, and all other elements required to deliver a successful eligible project by the end of the contract. All Applicants are required to submit the minimum Grant Management Plan as defined below to identify stakeholders who will administer and execute an award.

For the purposes of this Program, a Grant Management Plan is a strategy for preparing to administer federal grant funds. Each Grant Management Plan will be reviewed to assure funding recipients have sufficient capacity to administer federal grants.

At a minimum the Grant Management Plan shall include the following elements:

- Detail of the project’s objectives and goals
- A list of actions to achieve the goals and objectives along with a timeline for the various stages of the project, defining when actions, objectives, and goals are to be complete and assigning the responsible staff position (not individual names)/partner
- A process to handle project implementation to include overall tracking, draw coordination, procurement coordination, and progress reporting
- A process to handle financial management and contract administration to include overall tracking, draw processing, procurement eligibility, and contract maintenance (amendments/revisions/etc.)
- A process to handle staff/partner personnel changes and duty transfers. Identify key stakeholders that will participate in the execution of all project activities.
- Staff/partner organizational chart showing all key stakeholders and indicating authorized signatories, financial management responsibility, procurement responsibility, and project
management responsibility, along with contact information, specific role and responsibility level, years CDBG experience, and time commitment of each individual identified.

List of Key Stakeholders

List of all key stakeholders, indicating authorized signatories, financial management responsibility, procurement responsibility, and project management responsibility, along with contact information, specific role and responsibility level, years CDBG-DR experience, and time commitment of each individual identified.

Key stakeholders should include:

- Contact
  - Authorized Signatories
  - Financial Management (Lead and Alternate)
  - Procurement (Lead and Alternate)
  - Project Management Options:
    - Lead
    - Alternate
    - Grant Administrator
    - Environmental
    - Engineering
    - Other
- Add every key stakeholder and decision-maker.

Environmental Exemption

An environmental review is the process of reviewing a project and its potential environmental impacts to determine whether it meets federal, state, and local environmental standards. The environmental review process is required for all HUD-assisted projects to ensure that the proposed project does not negatively impact the surrounding environment and that the property site itself will not have an adverse environmental or health effect on end users.

Not every project is subject to a full environmental review (i.e., every project’s environmental impact must be examined, but the extent of this examination varies), but every project must be in compliance with the National Environmental Policy Act (NEPA), and other related Federal and state environmental laws.

For this Program, because all eligible activities are planning and/or study-related, Applicants are exempt from performing an environmental review. However, Applicants must describe the activity for which they are applying for Program funds, and make a written determination of exemption.

More information about the environmental exemption requirements, and a sample version of the written Determination of Exemption, can be found below, in Appendix A of this guide.
**Procurement Policies and Procedures (local and federal)**

Each Applicant must provide adopted policies and procedures that show they are prepared to receive federal funding on a local level. Full compliance with federal requirements from the beginning is essential to ensure that all funding expenditures are eligible and reimbursable.

Applicants must follow the procurement process guidelines set forth in 2 CFR §200.317-§200.327 for grant administration, environmental, and engineering services if using CDBG-MIT funds to pay third-party vendors for those services. These rules and regulations also apply to procurement of construction services.

These procurement requirements must be followed to ensure reimbursement from CDBG-MIT funds.

The required GLO Procurement Checklist is available on the GLO website at https://recovery.texas.gov/. Local adopted procurement policies and procedures are among the documents required along with the completed application.

For further detail regarding procurement methods and requirements, refer to: recovery.texas.gov/local-government/resources/procurement-contracting/index.html.

**Evidence of Adoption of Procurement Policies and Procedures**

Along with the local and federal procurement policies and procedures, Applicants must submit documentation from the applicable city council, commissioners court, or other representative body which formally adopted the policies and procedures.

**Fiscal Year End Statement or Single Audit**

Applicants must submit their most recent, fiscal year-end audit reports. Applicants must submit their most recent, Single Audit, if they've received one.

**Finance Policies and Procedures**

Applicants must provide local financial management policies and procedures, to prepare for the receipt of federal funding.

**Evidence of Adoption of Financial Policies and Procedures**

Along with the local financial management policies and procedures, Applicants must submit documentation from the applicable city council, commissioners court, or other representative body which formally adopted the policies and procedures.
Other Funds Documentation

If funding from other sources is being used in conjunction with Program funds to complete an eligible Program activity, Applicants should submit documentation related to all non-CDBG funding sources, including, Notification of Award, Grant Contract, Evidence of Application Submission, etc.

Current Hazard Mitigation Plan

For Applicants seeking to update their local Hazard Mitigation Plan, they must provide a copy of their current HMP.

Evidence of Adoption of Current HMP

Along with the current HMP, Applicants must submit documentation from the applicable city council, commissioners court, or other representative body which formally adopted the plan.

Disclosure of Conflict of Interest

Applicants are required to designate an individual to serve as an overseer of all grant activities, to ensure that there are no "conflicts of interests" in any, and all, activities related to the administration of a GLO grant. It is recommended that the individual designated to serve in this role be employed in a position outside the chain of command of the staff administering this grant and have the ability to bring any concerns directly to the elected official, city council, or county commissioners court.

If during the application process, the Applicant is required to provide a detailed explanation of any and all potential conflicts of interest and submit any corresponding supporting documentation.

6. SUBMITTING AN APPLICATION

After completely filling out the application and uploading all required documents, you will be able to submit the application. Note: the Submit button will not be visible until all tabs have been completed and all required documents have been uploaded. Click Submit to Submit the application (see image below).

A confirmation with the subject "TX GLO Local Hazard Mitigation Plans Program (LHMPP) Submission" will be sent to the email provided. This email included an intake Application No. and constitutes official proof of application submission.
AFTER THE APPLICATION: WHAT TO EXPECT

Application Review

All applications will be reviewed by GLO staff or its assigned representatives to determine if each application (1) is complete, (2) proposes activities that are eligible, and (3) meets program requirements.

Upon receipt of a LHMPP application, GLO will perform a first review as soon as possible on a first-come, first-served basis. If application is missing any information required to determine eligibility, GLO will contact the Applicant to obtain the missing information. To the extent possible GLO will work with the Applicant to produce a complete and eligible application.

Award & Contract

If the application is determined to be eligible, GLO will send the Applicant a notification of award and a grant contract will be executed. After execution, a Kickoff Meeting will be scheduled to discuss the administrative and programmatic components of the program. The Kickoff Meeting will be tailored to the specific project selected by the Applicant.

Deliverables & Reimbursements

After signing the contract with GLO, the LHMPP awardee can begin implementing the activities and receive the funds awarded. LHMPP is a reimbursement-based program, which means awardees must first pay out-of-pocket and then request to be reimbursed by GLO.

The LHMPP reimbursement process involves 3 (three) reimbursements. In each reimbursement, the awardee will receive a specific percentage of the award. To be eligible for a reimbursement, awardee must submit to the GLO (1) the deliverables for that specific reimbursement, and (2) all associated invoices from consultants and proof of payment to consultants, OR, if project is performed in house, all associated timesheets and proof payment to internal staff.

For the purposes of the New HMP Development and Update, GLO will hold no approval authority over any part of the HMP. GLO will only approve reimbursement draws. Overall, the process will flow as follows:

1st Reimbursement (25% of the award)

- Awardee will procure services and submit (1a) the Procurement Contract Documentation and (1b) the Preliminary Draft Plan to GLO.
  a) The Procurement Contract Documentation (1a) must include copy of Request for Qualification (RFQ), copy of signed contract between awardee and consultant, copy of published advertisement with dates and publication’s names, list of respondents to the RFQ (if only one firm responded a letter stating that fact should be included),
evaluation/selection criteria, score of each respondent, and a letter/statement indicating who was selected.

b) The Preliminary Draft Plan (1b) must include the Planning Process and Risk Assessment portions of the HMP.

- GLO will review the document and issue the 1st reimbursement.

2nd Reimbursement (50% of the award)

- Awardee will create a Draft Plan. This incorporates review comments from the Preliminary Draft review. Awardee will send the Draft Plan to TDEM.
- TDEM will review and forward the Draft Plan to FEMA.
- FEMA will review and send a letter of Approval Pending Adoption (APA) status to TDEM.
- TDEM will send Approval Pending Adoption (APA) Status letter to awardee.
- Awardee will submit the APA status letter to GLO.
- GLO will review the document and issue the 2nd reimbursement.

3rd Reimbursement (25% of the award)

- The Awardee will adopt the Plan (which is now Final) and submit the Adopted/Final Plan, along with Proof of Plan Adoption, to TDEM.
- TDEM will review and forward the Adopted/Final Plan to FEMA.
- FEMA will review, approve the Adopted/Final Plan, and send a letter of Approval (APP) to TDEM.
- TDEM will send APP Status letter to awardee.
- Awardee will submit the letter of Approval (APP) to GLO.
- GLO will review the document and issue the 3rd reimbursement.

In addition to the deliverables, in order to be reimbursed, awardees must also provide a reimbursement form, all applicable invoices from consultants, and proof of payment to consultants (such as copy of check or other form of payment, i.e., VCC or ACH, paid to consultant; a copy of the face of the check paid to the consultant or a copy of the electronic version of payment paid to the consultant needs to be provided). If project is performed in house, all associated timesheets and proof payment to internal staff needs to be provided.

The table below recapitulates the percentages associated with each reimbursement, the associated deliverables, and the other required documents.

Additional resources, including deliverable templates (RFQ templates, Preliminary Plan template, etc.), Reimbursement Form templates, and other reimbursement-related documents are available on the GLO website.
APPENDIX A – DOCUMENTS INSTRUCTIONS

Application for Federal Assistance SF-424

Each Applicant for CDBG-DR funding must certify by signing SF-424 that local certifications included in this Application Guide have been followed in the preparation of any CDBG-DR program application, and that they will continue to be followed in the event of funding.

Note: False certification can result in legal action against the jurisdiction.

All applications must be accompanied by a completed and signed Application for Federal Assistance SF-424, OMB Number: 4040-0004, Expiration Date: 12/31/2022. SF424_ is available on the GLO website: https://www.recovery.texas.gov/files/resources/mitigation/sf-424-application-for-federal-assistance.pdf

The following instructions regarding SF-424 are taken from: https://www.grants.gov/web/grants/form-instructions/sf-424-instructions.html

Environmental Exemption

Determination of Exemption for Activities Listed at 24 CFR §58.34

- A determination of exemption applies to the list of activities at §58.34 in which NEPA environmental review, consultation or other actions are not required.

- **Responsible Entity (RE) must comply with the requirements of §58.6 (Compliance Checklist) related to Flood Disaster Protection**, restriction on HUD assistance for a project located in Coastal Barrier Resource Areas; and buyer notifications required if a HUD assisted project is located in a Runway Clear Zone or Clear Zone.

- Compliance with statutory laws and authorities cited in §58.5 (Statutory Worksheet and Statutory Checklist) is not required.

- Publication of a Notice of Intent to Request Release of Funds (NOI/RROF) is not required.

- Submission of a certified RROF to HUD/State is not required.

- **RE must document the determination in writing (Determination Form) and the documentation must be maintained in the ERR.**

Sample Environmental Exemption Determination Form on the following page.

Form is also available at:
Part 58 Environmental Review - Exempt or Categorically Excluded (Not Subject to 58.5) Format - HUD Exchange
Environmental Review
for Activity/Project that is Exempt or
Categorically Excluded Not Subject to Section 58.5
Pursuant to 24 CFR Part 58.34(a) and 58.35(b)

This is a suggested format that may be used by Responsible Entities to document completion of an Exempt or Categorically Excluded Not Subject to Section 58.5 environmental review.

Project Information

Project Name:

Responsible Entity:

Grant Recipient (if different than Responsible Entity):

State/Local Identifier:

Preparer:

Certifying Officer Name and Title:

Consultant (if applicable):

Project Location:

Description of the Proposed Project [24 CFR 58.32; 40 CFR 1508.25]:

Level of Environmental Review Determination:

☐ Activity/Project is Exempt per 24 CFR 58.34(a):

______________________________________________________________
☐ Activity/Project is Categorically Excluded Not Subject To §58.5 per 24 CFR 58.35(b):

Estimated Total HUD Funded Amount:

This project anticipates the use of funds or assistance from another Federal agency in addition to HUD in the form of (if applicable):

Estimated Total Project Cost (HUD and non-HUD funds) [24 CFR 58.32(d)]:

## Compliance with 24 CFR §50.4 and §58.6 Laws and Authorities

Record below the compliance or conformance determinations for each statute, executive order, or regulation. Provide credible, traceable, and supportive source documentation for each authority. Where applicable, complete the necessary reviews or consultations and obtain or note applicable permits of approvals. Clearly note citations, dates/names/titles of contacts, and page references. Attach additional documentation as appropriate.

**Mitigation Measures and Conditions [40 CFR 1505.2(c)]**

Summarize below all mitigation measures adopted by the Responsible Entity to reduce, avoid, or eliminate adverse environmental impacts and to avoid non-compliance or non-conformance with the above-listed authorities and factors. These measures/conditions must be incorporated into project contracts, development agreements, and other relevant documents. The staff responsible for implementing and monitoring mitigation measures should be clearly identified in the mitigation plan.
